As many New Castle football fans as possible who can leave their autos at home Saturday when they go to Taggart Stadium are asked to do so. This will greatly relieve traffic congestions. The Cunningham avenue section from Taylor to Lutton street has been reserved for the cars coming here from Martins Ferry. Police will see that all cars without stickers are asked to leave the section.

Chest Campaign Given Start At Workers' Rally

Week's Solicitation, Opened Last Night, Progressing Today

OFFICIAL OPENING IS SET FOR MONDAY

Butler 'Y' Man Speaker As Teams Hear Plans For $70,000 Drive

The 1937 Community Chest campaign for $70,000 for nine of the leading welfare and character building institutions of the city got off to an enthusiastic start when nearly 200 team workers met for instructions at The Castleton last night .

Officially, the campaign opens at noon on Monday, October 18—but by that time the teams now hope to be able to report a healthy portion of the $70,000 needed.

"There's only one answer to this whole thing—and that answer is you," was the ringing challenge the chief speaker of the evening, General Secretary John Durno, of Butler's Y. M. C. A. near the end of an address in which he reviewed the Butler campaign methods. Butler's drive, closed last week, went far over the $70,000 goal.

"I predict the drive will end in victory," he went on. "Your spirit would indicate that, and the reports of the work your nine agencies have done should alone send it over the top.

Mr. Durno was introduced by A. L. Bintz, Jr., president of the Community Chest and the chairman for the evening. He, too, spoke.

Chairman Speaks

Mrs. Grace Phillips Johnson, general chairman of the campaign and leader of a successful drive in 1927, told the campaigners that many dollars will be saved through the local director plan this year and urged the citizens to support the drive as they never have done before. She told the team members that within a short time the members of all the boards of the nine agencies will have subscribed 100

President Considers Latest Wounding Of Americans In China

DOMESTIC PLANS INTERFERRED WITH

By GEORGE DURNO
International News Service Staff Correspondent

HYDE PARK, N. Y., Oct. 15.—American casualties in China as a result of Japan's latest thrust gave President Roosevelt further concern today in Japan's undeclared war with China.

For the second day in his visit to his family home, the Sino-Japanese situation interfered with the president's plans for his stay here.

Mr. Roosevelt had planned to devote his six-day visit to consideration of domestic problems he will present to the special session of congress November 15.

Telephone calls and telegrams from the state department yesterday pulled the chief executive from consideration of crop surplus control which he considers the major front of the impending special session.

He was advised of new developments in the wounding of a sailor and five marines by Japanese shellfire aboard the U. S. S. Augusta, flagship of the Asiatic squadron, at Shanghai.

Britain Makes Formal Protest

Attack On British Embassy Autos By Japan Is Cause Of Move

(International News Service)

TOKYO, Oct. 15—The British government protested to Japan today against the attack on three British embassy automobiles in China by six Japanese war planes.

The formal protest was handed to Japanese Foreign Minister Koki Hirota by British Ambassador Sir Robert Craigie.

Carrying British officials and a party of civilians, the embassy cars were machine-gunned by the Japanese planes on Tuesday near Minghong about 13 miles south of Shanghai.

British authorities said the cars carried union jacks which could be distinguished from thousands of feet in the air. The Japanese took issue with this and sought to throw responsibility for the incident back to the British themselves by asserting the automobiles were following a route which was not specified when the British gave advance notice of the trip.

Potter's Field Grave Yawning For Gang Head

(International News Service)

BANGOR, Me., Oct. 15.—A lonely grave in Potter's field yawned today for Al Brady, Indiana bandit chief toppled from his Public Enemy No. 1 pedestal of notoriety by G-men bullets on Columbus Day.

Relatives in Indiana professed no interest. His father said he had no money to bury him.

So City Physician Herbert C. Scribner notified Cornelius Frost, clerk of the overseers of the poor, to claim Brady's body.

Two companions in crime were taken back to Indiana—the body of one by train in a box in the baggage car, and the other, sole survivor of the withering stream of G-men bullets, by airplane.

The one in the box was Clarence "Lee" Shaffer, Jr., baby member of the gang. His father sent $100 for the expenses.

The other was James Dalhover, taken in a government plane to Indianapolis to await trial for one of the four murders he confessed the Brady gang committed.

Buckley didn't win the nomination of either party, but he had a lot of fun.

C.I.O. Makes New Tentative Move For Labor Peace

BULLETIN
(International News Service)

ATLANTIC CITY, N. J., Oct. 15.—The committee for industrial organization today extended tentative and cautious acceptance, hedged with reservations, of the American Federation of Labor's bid for peace.

Replying to the A. F. of L.'s suggestion that a "reasonable number" of delegates from each side meet in conference to iron out the dispute, the CIO authorized dispatch of a telegram to the parent body at Denver in which recession from John L. Lewis' original offer of two "committees of 100" is taken.

The CIO proposed definitely that a committee of ten delegates from each labor camp meet in Washington on October 25 to fix the number of delegates who would comprise the actual peace-negotiations committee and to fix a place for the proposed peace conference.

The contemplated suit, according to Miss Monti's attorney, Clifford A. Rohe, comes as a result of a row at the famous funny man's home three weeks ago.

Police were called twice to quell what Fields termed a "domestic disturbance between Miss Monti and the butler."

A. F. Of L. Re-Names Green President

Await Reply From Lewis On Proposal For Peace Conference

(International News Service)

DENVER, Oct. 15.—The American Federation of Labor, preparing to end its annual convention, today awaited a reply from John L. Lewis to its latest proposal for a conference to end the split in the ranks of American labor.

The federation, by a roaring vote, re-elected William Green as president and offered to meet the representatives of the rival CIO unions at a conference designed to settle the quarrel between the A. F. of L. and the John L. Lewis organization.

Although the A. F. of L. indirectly rejected the CIO suggestion for a conference of 100 representatives from each faction, the executive council offered to meet with the rebel group to discuss reuniting of the labor movement "under the A. F. of L. banner." The federation suggested that the CIO name a committee to negotiate with the A. F. of L. standing committee of three, headed by George Harrison, or that committees of a "reasonable" number be appointed by each group to meet around the conference table for peace talks.

"I hope and pray that the labor movement may be reunited," William Green told the convention after his re-election. "I am sure that calm reason will prevail around the conference table."

SHANGHAI, Oct. 15—Japanese authorities formally apologized to American officials today for the "inaccuracy" of Nipponese airplane bombers who sent high explosive missiles crashing into the United States defense sector of the International settlement.

Half a dozen American Marines nursed injuries as a result of the Japanese "error" in dropping bombs near Marine outposts along Soochow creek. The Japanese apology, tendered to Major General Beaumont, said two bombs had dropped into the American-patrolled area.

Meanwhile, Chinese infantry forces, based in the ruined Chapei sector staged a series of reckless counter-attacks against Japanese positions as the most terrific battle of the Shanghai war raged through its second day of unremitting bombardment .

Chicago Slayer Executed Today

(International News Service)

CHICAGO, Oct. 15.—Promised that he would be buried in the new suit he had bought for the occasion, Peter Chrisouslas died in the electric chair early today, a contented man.

Time and again as the hour of his execution approached Chrisouslas expressed concern over his burial attire. When assured that he would go to his grave in the new suit, the 40-year-old slayer of a theater manager, sighed and said: "Now I am ready."

Officials Of Teamsters Union Say Mass Picketting To Be Discontinued

REPORT INCREASE IN MEMBERSHIP

(International News Service)

PITTSBURGH, Oct. 15.—Police today banned the halting of dairy and oil trucks and picketing of filling stations in a move to forestall incendiarism and protect the city's food supply in the A. F. of L. truckers campaign to unionize the trucking industry.

Simultaneously, officials of general teamsters council, which is directing the union drive, ordered discontinuance of mass picketing, declaring their four-day drive had reached a successful culmination. Only a few roving pickets would remain on duty now, it was said.

Report Results.

Scott F. Marshall, teamster council president, announced more than 1,000 men had taken out union cards here during the campaign with substantial increases in membership reported also at Erie, Youngstown, Steubenville, Wheeling, Clarksburg, Ford City, Jeannette, New Castle and other neighboring cities.

In a final mass picketing drive early today trucks were halted in and about the city by pickets who urged the drivers to join the union. No violence was reported. A number of trucks enroute to Pittsburgh were turned back at Charleroi when the drivers were unable to produce union cards.

Agency Speaker Heard

Mrs. Johnson called upon representatives of the nine agencies to present, in three minute talks, highlights of their institution's work during the past year.

The talks came after an opening film which developed the Community Chest theme. There was also a comedy feature. Before the film the crowd sang the "Star Spangled Banner" under the leadership of Samuel Lewis.

Speakers for the agencies were:

Jameson Memorial hospital, Emanuel Shenkan; New Castle hospital, Attorney Thomas W. Dickey; Y. M. C. A., John P. Boyles; Y. W. C. A. Mrs. Robert A. Eckles; Boy Scouts, Rev. A. M. Stump; Girl Scouts, Mrs. C. M. England; City Rescue Mission, Rev. C. H. Heaton; and for the Salvation Army, Captain Clifford Schofield.

Bernard N. Hanlon, the drive's local director was introduced to the group and spoke briefly.

The workers themselves this year will "pay their own way" when it comes to the 25 cent luncheon on Monday and following days in the First Christian church.

Frank L. Orth of senior high and other school officials.

Next will follow the Boy Scouts of New Castle who will have charge of the flag raising at the stadium. Following the scouts will come the Martins Ferry high band and following will come the Martins Ferry high students.

The New Castle high band will be next in line, and then the New Castle High Boosters club.

Will Raise Flag.

It is planned to have the parade reach the stadium at 2 o'clock. Upon arrival at the field the two bands will parade the field. Then the scouts will raise the American flag as the bands play the Star Spangled Banner. The singing will be led by Harry Evans and George Anthony.

Mayor Charles E. McGrath of New Castle will introduce and greet Mayor Lee Woods of Martins Ferry. Carl E. Crawford, superintendent of the Carnegie-Illinois Steel Shenango and New Castle works, will introduce and greet General Superintendent Earl Thompson of the Laughlin works of the Carnegie-Illinois Steel of Martins Ferry.

To Drop Colors.

Just as the two teams appear on the field Aviator William Ice will fly over the field and drop a football and colors of both schools.

Between halves the Martins Ferry high band will again take the field for a series of drills, while again Aviator Ice will take to the air and drop more colors upon the stadium.

All in all it is going to be a football spectacle worth seeing. There will be a riot of color at Taggart stadium. The committee has made plans to decorate the stadium from top to bottom. Remember that there will be a lot of strangers in town from Martins Ferry tomorrow, treat them courteously just as New Castle people expect to be treated when New Castle plays out of town.

VEGETABLES KEEP BEST WHEN STORED PROPERLY

Storing time for the hardy vegetables is just around the corner. Temperature and moisture requirements must be considered in choosing correct storage conditions.

Salad and root crops require temperature conditions ranging from 40 to 33° F. The humidity varies from 95 to 85 per cent.

Cabbage is at the top of this temperature and humidity scale. Solid heads of Danish keep best. The outer leaves and usually the stems and roots are removed.

Brussels sprouts and kale come next in temperature requirements. They keep best under moist conditions, rated as 95 per cent humidity. They can be left in the garden until severe weather. Freezing improves the texture and flavor. The roots are set in soil in storage.

Celery, Chinese cabbage, endive, and escarolle require slightly cooler storage temperature but also require 95 per cent humidity. They may be left in the garden until cold weather but should be protected from severe frosts by covering with heavy paper, dry burlap or boards. The roots should be kept moist but the leaves should never be wet in storage.

Beets, carrots, winter radishes, rutabagas, and turnips keep best at about 35° F. and in a medium-moist atmosphere of 90 per cent humidity. Select medium-sized, tender roots free from cracks, disease, and injury. Remove the tops. The roots may be covered with soil, sand, or leaves to hold moisture.

Parsnips and salsify need slightly cooler conditions and 90 per cent humidity. Smooth, firm roots of good size may be placed in soil or sand and allowed to freeze before using.

Onions keep best in an atmosphere of 85 per cent humidity and just above freezing. Soft-necked and injured bulbs should be discarded. Good specimens should be placed in slatted crates, baskets, or trays 4 to 6 inches deep for free circulation of air.

MANY MATERIALS AVAILABLE FOR THE NEW FALL DRESSES

The trend in new materials is toward the smooth surface finish, explains Miss Mary Vogle, home economics extension representative of Lawrence County.

If your dress is to be of wool, the material may be one of those sheer lightweight fabrics, or jersey or a wool voile treated to resist too many wrinkles. For suits and coats, soft fine tweed, broadcloth, or alpaca are new.

Silks are made with heavy woolen-like weave; jersey is popular, so is satin, and for the dressy afternoon or evening gown, the weave is crepy, or corded like faille or bengaline. A contrast to this is the duvetn. Velveteen or corduroy is popular for suits and jackets with woolen skirts.

The synthetic fabrics are mixed with wool in many fabrics. While the result is not so warm, it may be less irritating to the skin, Miss Vogle says.

In buying material, good quality is most economical in the long run. It wears better, stands cleaning and pressing, and justifies the amount of work put on it. Be sure to ask what you are getting if no label tells you. Avoid weighted silks as metallic weighting affects the durability of the fabric. Check on information about color fastness and shrinkage. Any decision as to fabric should go with decision as to pattern. Helpful suggestions for choosing suitable materials are given on the back of pattern envelopes.

Color is always a problem. Unrelieved black is not flattering to many women. You may prefer to lighten it with emerald green or beige, dull blue, pink, or purple shades. Carefully chosen, a harmony of two or three colors may be used. The browns include the dark "wood" tones as well as beige and "spice" tones.

The greens are dark evergreen shades, and olive green. Try a combination of light and dark shades, very popular this fall. The reds include wine shades and rust or orangey reds. Blue and yellow, usually spring shades, are surprisingly popular. The yellow is gold and the blue is a dull, almost slate blue.

POULTRY SHORT COURSE ANNOUNCTD BY COLLEGE

The seventeenth annual poultry short course and the semi-annual meeting of the Pennsylvania State Poultry association will be held at the Pennsylvania State college, on October 25 to 29.

In the short course proper during the first two days the program starting Monday noon will consist of a discussion on the basic facts affecting egg production, egg and poultry marketing, and poultry nutrition. The most recent research and practical farm findings also will be presented. Members of the college staff will conduct this part of the program.

The Poultry Association program, from Wednesday noon to Friday noon, will stress housing, incubation and management. Numerous other topics, however, will be discussed. Several speakers of national prominence in both the educational and commercial fields will appear on this program.

Special features on the program will include a get-together with the Penn State Poultry club cooperating; inspection of the college poultry research farm, and a banquet at which Billy B. Van, the noted humorist, actor, and lecturer, will be the speaker.

KNOW WHAT TO DO WHEN PRUNING FRUIT TREES

When in the midst of your winter's pruning work, did you ever wish that you could tell which branches would produce the most and the best fruit? Or do you suppose that all branches are of equal value?

Unfortunately, in the dormant season when pruning work is being done, it is not possible to get information on this point by observations which may be applied when pruning next winter.

Recent experimental work in Michigan has led to the belief that the more vigorous wood on the mature tree not only bears the most fruit, but also carries the best sizes and best colored specimens. The more drooping branches are generally the least vigorous and consequently the poorest producers. Lower inside branches seem particularly poor.

Of course, the tendency to have drooping branches will vary with different varieties, but with practically all mature apple trees which have not been heavily pruned, a little study will disclose that there are some branches which hang from the under side of the main scaffold limbs and that these are generally comparatively low in vigor.

Take a little time to examine your trees and check the application of these statements.

If the trees are too thick, some branches will be removed in pruning. Why not make a special effort to learn which branches are the more worthless and remove them in due season?

CAREFUL PLANTING OF EVERGREENS EXPLAINED

Evergreens in general require a good well-drained soil.

In preparation for planting, the hole should be dug wide and deep enough to permit free entry of the ball of earth encircling the root system. The plant should be placed slightly deeper than it originally stood in the nursery row.

Good topsoil should be placed in and around the ball of earth and thoroughly tamped when the soil is level with the top of the ball, after which a thorough watering of the plant should be made. It is best to have the water all around the ball of earth before filling in to the level of the existing planting area with soil.

Allow a small saucer-shaped mound of soil to extend from the trunk of the plant out to the spread of branches. This will permit the plant to receive a good supply of water at intervals depending on existing climatic conditions. During the winter this saucer-shaped mound should be removed to prevent water from collecting around the trunk of the plant.

Mulching the planting areas with peat moss or well-decomposed cow manure applied when the ground is thoroughly frozen will prevent excessive heaving of the soil in the spring. After danger of frost is past this mulch can be worked into the soil to help retain moisture.

Pruning of evergreens primarily used for foundation plantings is considered important. The pruning generally is done before the new growth develops in the spring. A pair of hedge shears or clipping shears is suggested for this week.

Aids In Building Electric Lines

Owing to the demand for rural electrification in this section the Pennsylvania Power company has not been able to keep pace with the demand and as a result the Collier Construction company of Ohio, a firm which engages in this kind of work, has been employed by the Pennsylvania Power company to assist in installing such lines. Their employes have been building rural lines in South Beaver township, Beaver county, and also in Grove City district, Mercer county, it was learned here today.

Japanese authorities, however, claimed the Chinese have lost 10,000 killed 20,000 wounded on the Chinese Northwestern front in the past two or three days.

These casualties, said the Japanese, included 2,500 Chinese troops killed in a battle leading up to Japanese occupation of Neichiu, 12 miles north of Shuntefu, which Nipponese officials declared is the only remaining center now held by the Chinese in all Hopei province in the North.

HEEDED ADVICE OF FRIEND, NOW HASTENS TO RECOMMEND VENDOL

Popular Young New Castle Woman Finds Vendol A Wonderful Relief For Indigestion. Constipation Relieved, Feels Like A New Person.

MRS. ROSE FELLERS

Vendol is not sold on idle claims or unfounded statements, but rather on the sincere testimony of grateful users and on one friend's advice to another. Since Vendol has been introduced in New Castle, the news of this wonderful medicine has spread like wild-fire and thousands of local people are taking it and swearing there is nothing can beat it.

An outstanding example of how one peson benefitted from another's advice is the case of Mrs. Rose Fellers of 212 S. Walnut St., New Castle, who says:

"For years I had been bothered with gas and stomach distress after eating and every meal was an ordeal. The gas bloated me up, pressing against my heart so I could hardly get my breath, and bringing on pains that had me worried to death. My food lay heavy in my stomach often for hours after I had eaten.

"My elimination was very irregular and as a result I would often get up in the morning feeling dizzy, with spots dancing before my eyes and a vile taste in my mouth. My nerves were shaky and I tossed and turned most of the night. It is no wonder I felt tired and depressed all during the day.

"Fortunately for me, when we moved here I met Mrs. A. L. McKibben, and when she heard of my trouble she advised me to take Vendol. In a very short time my bowels began to move easily and naturally, and soon I could eat my meals in comfort without fear of suffering afterwards. My nerves became normal and I would awake feeling refreshed after a good night's sleep. Dizzy spells and bad taste in my mouth never trouble me any more and I look forward to an active day's work.

"I am so thankful that I heard about Vendol I wish to let others know about it, too, in the hope that they will give it a chance to relieve them just as it did me."

The Vendol Man at New Castle Drug Co., 35 E. Washington St., will be glad to tell you all about this famous remedy, rich in Nature's Roots and Herbs combined with valuable Alkalines. New Castle Drug at 24 N. Mill St., Schweitzer's Pharmacy, Ellwood City, and all other leading druggists also sell and recommend Vendol.

WHAT? ANOTHER ONE?

IT SEEMS there isn't enough confusion in the nation and the world but Governor George H. Earle intends calling another special session of the General Assembly.

And why?

One "cause" is that he wants to revise and perhaps abolish the parole system and set up a sentencing body for the entire state. Specious reasoning if there ever was any.

The last special session Governor Earle called lasted six legislative days for which the boys in the Senate and House drew $500 plus $50 stamp allowance, plus two round trips to and from their homes at five cents per mile. The taxpayers paid about $300,000 for the junket and the results of the session were negligible. The purpose of the session was to put Pennsylvania in line with national social security legislation and get a national allotment of money. Later the Federal government gave it to all states whether or not they were in line.

As to the necessity of changing the parole system it does seem that after many years of operation another year isn't going to do any damage.

As to the provision to make a state wide sentencing body, the idea seems undesirable. In its essence it means this. A judge and jury would try the case. The sentence would be passed by some board that never heard of the case, knew nothing of the background of the principals and would be sentencing solely from the cold type of the record. In short it would reduce the judges to a group of trial hearers.

With a huge deficit staring the state in the face why add another possible half million to it by calling a special session?

WOMEN JURORS IN NEW YORK

New York City seems to be taking its new jury system pretty hard. With women permitted to serve on juries for the first time, there is great public curiosity about their decisions and how they arrive at them. Men who happen to serve on the same cases with women feel neglected and forlorn.

The latest evidence of the stir created by jurywomen in the court house is the announcement that a $2,500 lounge room with complete facilities for renewing the make-up is to be provided for them. The women already called for jury duty have complained about lack of such arrangements. In immediate response to their plea two big mirrors have been purchased and installed in the temporary rest room to help out until the powder room is ready.

It should be added that women jurors who have served up to now, according to a newspaper report, "have expressed interest in the legal procedure of the cases tried." Furthermore, they have been satisfied with the courtesy of the court attendants. In fact, their only complaint has concerned the lack of a pleasant place for dolling up.

A few cynics may inquire bitterly whether the powder room will suffice, or whether facilities for bridge and afternoon tea will be requested next.

POLICY NEEDS ELUCIDATION

President Roosevelt's remarks on foreign policy in his "fireside talk," apparently designed to lull fears that this country might stumble into Japan's undeclared war in China, were reassuring to a degree.

But many of his listeners doubtless would have been pleased to hear from him a somewhat more specific elucidation of a program, brought forward in his Chicago speech last week and carried forward by the State Department's formal condemnation of Japan as the aggressor, that implies a radical departure from strict neutrality.

It is encouraging to know that the president understands the perils of the present international situation and that he is resolved to keep away from the quicksands of war that engulfed Woodrow Wilson. His statement that during the war years in Washington he learned much of what to do and what not to do, presumably to keep the country out of war, is heartening.

It should be remembered, however, that President Wilson did not deliberately move toward war. He was carried there by—among other influences—his own spoken and written words and outside pressure. It is well to say with President Roosevelt, "America hates war. America hopes for peace. Therefore America actively engages in the search for peace." But there should be added, "America is resolutely determined to keep out of wars which are not her affair."

The president would be well advised to seek sound counsel before committing the country to any further steps in the Far East crisis.

ALCOHOL'S TOLL

Alcohol may be playing an even greater role in motor accidents than the public has realized.

The coroner of Cuyahoga county, Ohio, which includes the city of Cleveland, has compiled an impressive report for the first eight months of this year, based on analysis of the bodily fluids in the fatal cases coming to him.

He finds that alcohol was present in the bodies of 56.5 per cent of all the people killed in automobile accidents. In other words, more than half the victims were under the influence of liquor at the time of their death.

Of the men, the alcoholic cases were 65.8 per cent of the total. Of the women, they were 21.7 per cent. Alcohol played its part in every age-group represented, from 15 years up to 94.

Lest people who do not drive should point the finger of accusation too self-righteously at the motorists, another fact must be recorded. The coroner's report includes the pedestrians killed in motor accidents, as well as the motorists, and this part of it is especially shocking. Seventy-four per cent of the people making up the total death list are pedestrians, and of those slain pedestrians six out of every ten were under the influence of liquor. Presumably there was at least contributory negligence on their part. Here is a phase of the problem to which little attention has been given.

These figures may not hold true for the whole country, but they are impressive enough to suggest further inquiry along the same lines. They tell with unusual effectiveness the plain fact that alcohol and gasoline don't mix.

The society of defaulting nations is considering severe disciplinary action against Hungary, which has decided to make payments on its debt to the United States.

The Parent Problem

By Garry C. Myers, Ph. D.

SCHOOL HONORS TEACHER

Last Spring there came to my attention something wholly new—a Teacher's Day set aside by the Parent-Teacher association, that occurred in a junior high school in Nashville, Tenn. I learned that the originator of this idea was Mrs. Nelson Hitchcock of that city. I wrote Mrs. Hitchcock to give me more information concerning it. Her reply:

"I am so glad that you like our "Teacher's Day' idea, and that you are going to give it a column. Starting it was my own idea, and if it is a success I will be very happy. I have been a teacher and am now a parent and a P. T. A. worker. I am vitally interested in anything that will increase the popularity of the teaching profession. I feel that we should stop taking teachers for granted, and that we should place them on the plane on which they belong.

"You asked where we held our program and what other schools were represented. The program was held in the auditorium of our local junior Hi school building. No other schools were represented but we had some prominent school and P. T. A. people there....An article about it will appear in the September issue of our State P. T. A. magazine.....I will enclose the poem."

No Teacher's Day

We have Mother's Day and Dad's Day
And a day for giving thanks:
We have New Year's Day and Jackson's Day,
And a Hallowe'en for pranks;
We have Flag Day and Navy Day
And the glorious Fourth for the Nation;
We have Valentine's Day, for lovers
And Christmtas of a week's duration;
We have Boys' Week and Girls' Week
And Week for Fire Prevention;
We have Dress Up Week and Clean Up Week
With all their good intention;
We have days and days and weeks and weeks,
For almost every creature;
But never a day nor never a week
For the faithful, patient teacher.

—Cornelia Marr.

Not a bad idea, is it? It seems to me about time the teacher gets due public recognition.

All Of Us

By MARSHALL MASLIN

I SAW A MAN "DEGRADED"

ONCE, IN France, I saw a man publicly humiliated—"degraded" for something he had done or failed to do at the front.

The ceremony of degradation took place very close to the front itself, in a dirty, broken-down little village of Genicourt, about 12 miles from Verdun.

I saw a company of soldiers lined up in a field and two men standing in front of the unit. Something about the scene reminded me of the occasion when I was called up in front of the class in school and scolded for using a beanshooter when I should have been studying. So I went over to see what was happening.

And something WAS happening.

There stood a young French lieutenant, tall and pale and silent, with a war cross on his breast. In front of him, red-faced and angry, using words that were like stinging blows on the cheek, stood an older man, a major. He talked and talked, and when he was finished he walked up to the young man and cut the insignia from his tunic and ripped the symbols of his rank from him.

It was a curious scene and horribly grotesque. Down by the river the Germans were shelling a bridge, overhead toward the line two planes were maneuvering in a dogfight, from the north came the dull boom of artillery. And here, on this sunny hillside, one officer in angry dignity and publicly humiliating another.

I do not know what the degraded officer had done, but what it may have been, I know that on this afternoon at least, he was the most composed, the coolest, the bravest man, apparently, on that dusty field. The officer who humiliated him was suffering the most, and was the comic figure. His anger seemed pretentious and absurd, the whole ceremony seemed oddly out of proportion to the ghastly setting of the war. It failed to "come off" and was like a little firecracker that fizzes and goes out without exploding.

And ever since, when I see one man trying to humiliate another—trying to put another human being "into his place"—I think of that scene in France.

The editor finally kicked and decided to pay on the basis of the number of letters used. The writer's contributions then began to contain passages featuring a stuttering hero who courted a girl who also stuttered.

ONE of the most important assets in life—especially social life—is poise. Without it, we are practically a total loss. With it, we are masters of any situation.

Some people are born with poise; others must develop it or remain wallflowers forever.

Develop the art of self-possession. Be calm regardless of the situation. If you have poise, there can be no sudden loss of temper over trifles, no berserker rages.

During your moments of solitude—and every one should have a few such moments every day—take account of yourself. Study your facial expressions before a mirror, that you might learn to control those that detract from your charm.

If you find that, in the company of strangers, you do not know what to do with your hands and feet, concentrate, in private, on a graceful posture and arriage, and see the effect in your mirror.

Walk around the room with a heavy book on your head, sit down and get up still carrying the book on your head. To balance the book you wil lhave to assume a graceful and proper carriage. There is no better practice. If you do this daily, a good carriage will become second nature to you.

Sit calmly and relaxed for a few minutes a day and think poise, and you will find yourself much more at ease in the presence of strangers.

Talk Is "Bullish" For Them.
Economist Predicts Uptrend.

By LESLIE EICHEL
Central Press Columnist

OBSERVERS among the people believe that all matters mentioned in President Roosevelt's latest fireside talk will come into being—that if the special session of congress does not provide for them, they will come prior to the end of the president's term.

The New Deal will march on to new triumphs — hour and wage law, crop restriction, regional planning boards, government reorganization, severe restrictions against monopolies, etc., will be voted. Business evidently must take all this into consideration.

There will be terrific opposition from interests affected. There will be roars of protest from Old Guard Democrats. But the president and his advisers evidently believe they have divined correctly the opinion of the vast mass of people.

This latest fireside chat was a masterpiece in speaking "shoulder to shoulder" to the average man.

It also struck the average man when he was beginning to feel low over a possible new depression—and the international situation.

It did give new courage. It was designed for that. It was effective.

To prevent depressions, raise living standards and purchasing power. To maintain peace, seek affirmative action—reach out for it. That was the prescription.

Plus the reassurance that here was a president who knew the pitfalls and would seek to avoid them.

* * *

DEPRESSION?

With thousands of manufacturing plants going on part-time and with crop prices dropping, the fear of a depression has gripped Wall Street and the workers and the farmer alike.

Wall Street had an "advantage tip" that the talk would be "bullish". The tip, however, proved ironic. In the narrow Wall Street sense, the talk was not bullish. It was a confirmation that the president intended to go on with the New Deal — and this time with a supreme court in which the scales balance in his favor.

But to the average man, whatever his trade or profession, the speech WAS "bullish". And, to that end, it may be an aid toward ending the present fear psychology. It was a comforting talk. It looked to the long future—with higher social values achieved, greater economic independence gained.

* * *

UNJUSTIFIED FEAR

Fear psychology at present actually is unjustified, in the opinion of the most widely quoted of all big business economists, Col. Leonard P. Ayres of Cleveland Trust company. Says Colonel Ayres:

"It does not seem probable that the declines in business activity which are now under way will develop into a real depression. Business men are anxiously wondering whether a slowing down of such proportions as to constitute a new depression may not be on its way, for they are naturally alarmed by the severity of the recent declines in security prices. The chief reason why their fears are probably unfounded is that we have not yet made a full recovery from the old depression.

"The long history of recoveries from depressions has given us the unvarying rule that prosperity conditions are regained before a new depression begins. In the rest of the world, as in America, the long recovery from the great depression has been stimulated by exceptional expenditures of public funds. Such spending is in nature inflationary, and might be expected to generate business booms. That has not happened either abroad or here, for business has been so restrained by fear that it has avoided booms of production or speculation.

"The restraining fear abroad has been that of war. In this country it has been fear of further regulation. These restraints have slowed down the recovery, but they have prolonged it. This business recovery is like an automobile being

MORE NEEDED

Someone has said, "Beware when the Great God lets loose a thinker on earth—then all things are at risk."

It would behoove us all, then, to keep on our guard, because the annual congress of inventors has been in convention at Des Moines, Iowa, and there's no telling what new devices will come popping forth under the sun.

The president of the congress has listed what he considers the world's twenty most needed inventions. If any youngsters have the notion that Edison, Maxim or Steinmetz exhausted the want of science of its powers, they're sadly in error. There's much work yet to be done, and any number of fresh, bright minds are needed to do it.

So here, you young Americans who have an inventive kink in your makeup, take to your workshops and try your calibre on these problems:

An electric light bulb expends 82 per cent of its energy in heat—not light. What the world needs is a "cold" light.

Something this government wants is a noiseless airplane motor. And still non-existent is an airplane that will rise vertically without benefit of take-off.

Smart inventive brains have still to devise an automatic window closer for the sleeping public, or a dandelion exterminator, or a method for producing rain when and where it's wanted, or gasoline that won't carbonize in a motor, or a gadget to make wallpaper hanging simple for amateurs.

It's a whopper of a list, but go to it, young America, and best of luck!

DRESSING UP

When she was only three or four
She played at being grown,
And oft her mother's garments wore,
As though they were her own.
She strutted in a trailing dress
And wore a bonnet gay,
For that was Janet's happiness
On many a rainy day.

She loved the game of dressing up
And having friends for tea.
The way she held her little cup
Was proper as could be.
For capes and robes and pretty things
She robbed both hook and shelf.
Took brooches, bracelets, pins and rings
And hung them on herself.

I've chuckled many a rainy day
To see her thus attired
And have her curtsey low and say:
"Your company is desired.
A few friends I have asked for tea.
I've know them all my life;
And very happy I should be
If you should bring your wife."

Now to those grand and lofty airs
Has Janet fully grown,
And still her mother's trinkets wears,
As though they were her own.
But what is more than silk and lace
And jeweled neck and arms,
She also wears with youthful grace
Her mother's many charms.

FRIDAY, OCT. 15th.

Once Upon Oct. 15th—There is no legend more popular than that the beautiful siren is the most important arm of military intelligence services, and that the greatest of all the lady spies in skirts and out of them was Mata Hari, who was executed by a firing squad in the fortress of Vincennes, Paris, 20 years ago today.

There is good evidence that Britain which has the best spy service of any nation, does not use women operatives. The memoirs of great secret service chiefs are studded with proofs of the inferiority of women as spies, and for very simple reasons.

As for Mata Hari, who was born Margaret Zelle, in Holland, Richard Wilmer Rowan sums her up in his brilliant study, "The Story of Secret Service," thusly:

"Her notoriety as a spy in the World War was mainly an outgrowth of the theatrical fame of the Javanese temple dancer.' For all her experiments in espionage, she is scarcely a footnote to the history of military secret service but she became an important pawn in a typical sordid intrigue of French civil and army politician in 1915-16.

"Whatever this woman's deficiencies as a secret agent, she continues to excel all records as an inspiration of romantic nonsense. It has never been difficult in her case to sift out the facts from the persevering legends. Yet whole volumes have been devoted to her exploits with such comprehensive suppression of truth, it would seem the biographers had never heard of her prewar reputation and were chivalrously bent on saving a wife and mother from a malicious canard.

"Mata Hari" was....never an effectual operative of the German Intelligence Service. Before a French court-marshial....she made out a strong case for herself. She had not been an active spy at all, but the courtesan-confidant of certain German officials. Some of these gentlemen had hit upon the thrifty scheme of paying for their recreation out of secret service funds. But when the subterfuge was detected, the luxury had to be liquidated, and the dancer was transmitted into the

driven up a long hill in low gear with the brakes applied. It takes a great deal of power to force it up, and its progress is slow and jerky. It is to be feared that at the top of this hill or some future hill it will be found that the brakes have burned out, but that has not happened yet. The extra power forcing it forward is government spending. The brakes slowing it down are the fear of the unpredictable.

"Business recovery abroad is further along than our recovery here. If business should go into a depression in the leading foreign nations, we should surely have a depression here, but that does not appear to threaten now. The stock market decline reflects a general realization by investors that our new managed economics are not going to produce the vigorous progress of recovery to prosperity which many had anticipated last year and last spring. Apprehensions concerning the stock decline may produce greater business recession than fundamental conditions genuinely warrant."

* * *

"NO DEPRESSION"

Colonel Ayres adds:

"In 1937 the per capita volume of production is still about 17 per cent below the last high point reached in 1929. If the old rule is to remain in effect no real depression should develop in the near future, and we ought not to expect one until after production has risen to distinctly higher levels than it has yet in this recovery. The records of the long history of the behavior of production in the business cycles of the past are entitled to a good deal of respect, for they are the products of fundamentally important conditions affecting changes in the standards of living of millions of people.

"The per capita volume of industrial production was about eight times as high at the peak in 1929 as it was in 1855. That great increase represents an enormous advance in the American standard of living. From decade to decade there was more and more production of the things people wanted and the share of each expanded. The increase represents enterprise, and initiative, and invention, and science, and the great developments of steam, and electricity, and gasoline motors.

"During this long depression the advances of technology, invention, and science have continued, and the desires of people for useful goods have increased. The arts of mass production have been improved. The accumulated shortages left by the long depression are still largely unfilled. It seems unlikely that under these circumstances business will decline into a new depression from the present relatively low levels of industrial output unless the downturn originates abroad, and becomes so general as to involve this country in the decline."

SENIOR HIGH SCHOOL NEWS

(Material Gathered and Edited by Student Reporters)

SENIOR HIGH NEWS

THE SCHOOL MOTTO

During the last few weeks the students have been purchasing special school pencils on which among several other inscriptions appears the school motto "Perge Modo". A surprisingly large number of high school students did not recognize our motto or else did not know its meaning. Therefore this column is publishing some interesting facts concerning the motto.

A number of years ago it was decided by the school to adopt a standard high school ring and it was naturally appropriate for the school ring to display the school seal. The existing official school seal had no artistic merit and therefore the present school seal was designed at that time and, since it is customary for the school motto to appear on a school seal, a campaign was conducted to select an appropriate motto.

The source of most motoes for states, schools, colleges and universities is Latin literature, a fact which is probably due to the conciseness of expression which is peculiar to that language.

"Perge Modo" was chosen by the student body from a list of possible mottoes submitted to popular vote. The expression "perge modo" appears many times in the great Latin epic the "Aeneid" and was always spoken to the hero Aeneas by his goddess mother whenever his courage weakened and he lost sight of his high destiny as the appointed founder of Rome.

The words cannot be literally translated into English because the expression is too idiomatic. "Perge" is the imperative of a Latin verb which means "advance", "go on" or "keep straight", while "modo" is merely an adverb strengthening the meaning of "perge".

"Perge Modo" is generally translated "Ever Forward" or "Forward March".

The Rooters' club will attempt to show the Martin's Ferry band and students how much the Ne-Ca-Hi football fans appreciated their reception and the courtesies extended to them while in Martin's Ferry last year.

Two special committees were appointed to take care of the arrangements for the game. They are: refreshments, Sophie Shuster, Charles Snyder, Evelyn Lockhart, Robert Walter; decorating committee for the stadium, Louise Shaffer chairman, Mary Alice Snow, Mary Lou Fulkerson, Elizabeth Eroe, Helen McCollum, Jean Waddington, Marian Vogan, Marian Sheaffer, Charles Snyder, John Henderson, Harry Jones, Howard Reitz, Thomas McCormick, Donald McCoy, Joseph Wallace, Jack McCarty, Charles Henry, Russell Garner, Gillis Falls and Robert Campbell.

These pictures in sepia were presented by a class of several years ago but they were sent away this summer and were all redecorated. They are finished very beautifully with frames of gold.

This redecorating was made possible by the June class of 1937, supervised by Mr. Copson, who left money to the library for that purpose.

An announcement was made by Anna Mae Dieterle concerning the membership. Dorothy Porte and Jane Haven also made announcements about the newspaper staff.

The meeting was adjourned with the entire group singing two songs. The girls then went to their interest groups.

Tuesday, third period, the girls of each session room were in charge of the home room programs, the subject being "Dinner is Served." City Workmen Grading Part Of Liberty St.

This portion of Liberty street has for many months been full of holes and ruts. The repairs will be welcomed by workmen from the railroad shops because they travel the road several times each day.

Standardization Helps Farmers

HARRISBURG, Oct. 15.—Standardization of farm products has been adopted so generally by Pennsylvania agriculture that 4,000 cars of certified graded produce were shipped this year, in contrast to the 200 cars graded and inspected in 1922, J. Hansell French, Secretary of Agriculture disclosed today.

Increase in the use of standard grades of farm products has been phenomenal and has been an important step in the solution of marketing problems in Pennsylvania. Previous to the establishment of the first official grades by the United States Department of Agriculture in 1917, apples, potatoes and the other fruits and vegetables were bought and sold without official grades or other classifications of quality. The adoption of grades for practically all commodities by the U. S. Department now makes possible the use of uniform standards in every state from coast to coast, makes possible better relationships between buyer and seller, eliminates much of the waste in marketing, facilitates the financing of agricultural products and makes possible the packaging of premium quality.

The following have entered the race: Harold Kline, James Robinson, James Rucker, "Brub" Morgan, Dick Buchannon, Ernie Withers, Bill Lammorree, Bob Wadlinger, Ken Davis and Jack Kerr.

STATE'S FARMS HAVE GOOD YEAR

HARRISBURG, Oct. 15.—Welfare Department institution farms are closing one of the most successful seasons in years, Arthur W. Howe, Jr., Secretary of Welfare, said today.

Early rains which were thought to be destructive, were highly beneficial to the crops, most of which already have been harvested. The potato yield was exceptionally good, while corn, oat and other feed crops for the dairy herds were favorable.

Retreating glaciers, sinking ice caps, and temperature records prove that North American winters are getting warmer, according to the U. S. weather bureau.

On Court House Hill

Registration Clerk, Thomas Edmunds, reports that the street lists of voters are now ready for distribution. The lists include not only this city and Ellwood City by streets, but the country districts by precincts. About one hundred lists of each street or precinct were printed on the mimeograph machine at the court house.

James M. Steiner by his parents and the latter, James and Mary Steiner, in their own right have filed an action in trespass at the prothonotary's office against Matt V. Hyde. Only the summons has been filed, the statement of claim to come later.

W. W. Richardson and E. S. Ingraham, partners trading as the Mercer Sanitarium at Mercer, Pa., have filed a suit at the prothonotary's office against the Lawrence Savings and Trust Company, guardian of Mrs. Sarah Kennedy, for $546.49. The bill is for keeping Mrs. Kennedy, a patient at the sanitarium, since July 14, 1937, at an expense of $45 per week, plus certain incidentals.

Two cases in which juries disagreed at the present term of court, will again come up for trial again unless settlements are made in the meantime. The cases are that of the Jos. S. Rice Company and Helen Dagnon against Albert J. Reed, administrator of Robert A. Reed, deceased, and that of J. I. Porter against Angelo Nido. The first is a controversy over a $317 note and the latter over the purchase of a cook stove.

I. H. Porter and J. W. Barnes have filed an amicable action in ejectment at the prothonotary's office against D. K. Cole to get possession of 4½ acres in North Beaver township, containing a sand bank. It is claimed that provisions of the lease have not been met in the payment of the royalties, and in making statements at regular intervals.

The New Brighton Building and Loan Association has filed an amicable action in ejectment at the prothonotary's office against Walter and Henrietta Kalenda, in which it is claimed that the provisions of a lease have not been carried out by the defendants.

Angela Potoczny of 1310½ South Jefferson street, has filed an application at the prothonotary's office for a divorce from Wladystow Potoczny, whose residence is given as Poland. The couple were married in Poland in November, 1933. The application for divorce is made on the grounds of indignities.

Additional expense accounts of candidates at the recent primaries have been filed at the county commissioners office as follows: Dominick Cioffi, register and recorder, $169.30; Ralph H. Ramsey, sheriff, $344.54; Abram P. Shaffer, sheriff, $173.34; Jess C. Kennedy, sheriff, $433.07; Orville Potter, register and recorder, $521.07; Ray Cutler, city council, $64.40; John Velker, sheriff, $355.90; Lester W. McClelland, city council, $107.75 and J. E. Van Goder, tax collector, Ellwood, $82.

In the estate of the late Elmer F. Johnson of Ellwood City, H. F Daufen presented a petition in court setting forth that he holds a $4000 mortgage, dated November 1, 1923 against the estate, and asking that a guardian, ad litem, be appointed for minor children of Johnson, on whom service can be made in foreclosure proceedings. The court appointed Mrs. Cora Alice Johnson, mother of the children.

Kittens around the court house, just can't understand the philosophy of revolving doors. One tried to get through the door at the west end of the court house yesterday and got its head caught. There was a great yeowling until it was released. Everybody thought its head was crushed, but it skampered off as though nothing had happened.

Will of the late Harry H. Bridgham of Ellwood City, has been admitted to probate at the register and recorder's office. Decedent left all of his property to his daughter, Eunice M. Bridgham, who is also named as executrix.

More Than Two Score Indicted At Scranton, Pa.

Imprisoned Former Bootlegger And Federal Prison Guard Among Indicted

(International News Service)

SCRANTON, Pa., Oct. 15—More than two score persons, including an imprisoned former "big shot" bootlegger and a guard at the Northeastern Federal penitentiary, were indicted here today by a federal grand jury.

William H. Little, the guard, and three inmates of Northeastern Penitentiary were named in true bills charging them with smuggling narcotics and merchandise into the prison at Lewisburg.

Prince D. Farrington, now serving a 20 months sentence at Lewisburg for illicit liquor manufacture, was indicted with nine other alleged members of his gang on similar charges.

The indictment charged the men had operated an illegal distillery in Lycoming county during the time they were on trial here in March, 1936.

Home Children See Magician Do Tricks

Children of the Margaret L. Henry and Crawford-Oakridge homes this afternoon are enjoying the matinee performance of Birch, the famed magician the Lions club has brought for two appearances as a benefit for its blindwork.

The youngsters are the guests of R. L. Boyd, president of the club.

Tonight Birch gives his main performance at the Cathedral.

ARREST EIGHT

Mrs. Lee Bolden, colored, 301 Bridge street, was arrested late yesterday by chief of detectives Showalter, Detective Moore and Officers Flinner and Tyrell and according to the officers they found illicit liquor in her place. Seven alleged visitors were also arrested.

Two of the visitors placed forfeits for a hearing today. The others were held in jail. Mrs. Bolden, who was injured recently, was permitted to spend the night at her home pending a hearing before Mayor Charles E. McGrath today.

Commissioners Hold Highway Conference

Nothing definite was accomplished by County Commissioners George Bolinger and Floyd Cotton during their conference with State Highway officials at a conference on the Edenburg-Hillsville road held in Pittsburgh yesterday. The understanding reached was that the commissioners are to confer with the heads of the limestone companies in the Hillsville districts to see if they will consent to some modifications of their demands relative to underpasses under the proposed road. The question of who is to build a bridge that will be needed is still undetermined.

Plan To Develop Young Republicans

(International News Service)

KENNETT SQUARE, Pa., Oct. 15.—Times have changed and today the rank-and-file must support the Republican party, according to Edward Green, of Pittsburgh, chairman of the state GOP committee.

"The Republican party is now the party of the people in Pennsylvania and it will be supported by the rank-and-file," said Green, who described the old system, under which a few men carried the financial burden, as unfair to both the contributors and the party.

The future policy of the state committee, he said, will be to develop young Republicans in every county and "to pay more attention to women voters, whose vote's are the foundation of the party."

In Elizabeth's reign furniture was elaborate. When James came to the throne his Scotch thrift was reflected in a lesser use of ornamentation. Cromwell's sway saw a further stripping of ornament. The restoration under Charles II brought back the splendor.

Highest Auto Death Rate Is Now Indicated

Figures For First Eight Months Of Year In Pennsylvania Exceed Former Records

Although New Castle had no automobile fatalities within its confines during the month of August, the auto death rate for the state as a whole was 22.8 per 100,000 population.

Three persons were killed in the county and 69 injured, the records of Secretary of Revenue J. Griffith Boardman reveal.

At the end of the first eight months of the year the state automobile death rate stood at 25.8, indicating that last year's high peak of 25 per 100,000 population would be exceeded.

Sixteen counties in the state had no automobile deaths during August, while Allegheny county, which led all, had 21. Philadelphia had 11.

In August 182 were killed and 6,056 injured in accidents on the highways throughout the state.

Up to the fifth day of October of this year, 1,942 persons had been killed and 44,280 injured, more than during the entire year of 1935, when 1,887 were killed and 48,398 were injured.

Book Authored By Dr. Walter McClure Is Now Obtainable

Former Local Pastor Writes Book Of Sermons First Preached In New Castle

Dr. Walter Emerson McClure, former pastor of the First Presbyterian church, and now pastor of the Covenant church in Detroit has this fall published his first book. It is a series of 10 sermons first preached in New Castle, and later revised and repreached in Detroit. They deal with the articles of the Apostle's Creed, and are both doctrinal and practical. Dr. Hugh T. Kerr, of Pittsurgh has written the foreword.

"I Believe" is the title of the volume. Some copies are obtainable at the office of the local First Presbyterian church.

IT'S A FACT ...

THAT AT THE Y. M. C. A.

Young men and boys enter an association that deals with conservation rather than reformation. Its great task is to shape and influence young life not to reshape or break down. Through its many sided activities the Association has been rendering such service in this community for more than fifty years. During the past year the New Castle Association has been able to serve more than one thousand boys through its building activities and group organizations. These organizations touch boys of all classes and ages. In all there were twenty-four such groups listed as Hi Y clubs, Gray Y clubs and Underprivileged groups, not to mention boys Physical Department groups and teams. The association has also been able to touch each year more than one thousand young men through its many Physical Department teams and Young Men's clubs. The value of such a service to a community can best be judged by the following quotation by Charles Evans Hughes: "The Young Men's Christian association constitutes in my judgment one of the most important factors for the maintenance of proper standards of life and exerts a powerful influence on the young men of this country."

PLAN FOR FURNITURE

When the layout of a new home is made, the bedrooms should be arranged with special consideration as to privacy. They should open directly on a common hall, without passing through other rooms. Openings should be planned so as to provide for proper placing of beds and other furniture. Adequate ventilation is essential, and sunlight should be afforded at some time during the day.

China's improved roads are five times as long as in 1930.

RAG RUGS

For making rag rugs from discarded hose, assemble the hose and sort them according to colors. Although light hose may be dyed, they will often give the desired light note to the rug if they are left as they are. Cut off the feet and then, beginning at the top, cut around the hose in a strip, that is one inch wide. Long strips are much easier to handle than shorter ones sewed together.

Raw starch to be used cold is made by mixing three tablespoons plain starch and one teaspoon borax with one pint tepid water. A hotter iron is needed for this type of starch because the heat of the iron must swell and stiffen starch.

NICE GARNISH

Broiled canned peach halves garnished with green pineapple mint jelly are good to serve with meat loaves. The peaches are especially good if centers are filled with butter and honey before broiling.

SOFT CORNS

These thin, soft, soothing, healing pads end pain instantly; stop pressure on the sore spot; safely remove Soft Corns between toes. Cost but a trifle. Try them!

Women From Here Going To W.C.T.U. State Convention

Convention Underway At Greensburg; Great Increase In Membership Reported

Mrs. W. G. Wilkins, of New Castle, president of the Lawrence County W. C. T. U., has been there since Wednesday and four others from the county are leaving today to attend the state Women's Christian Temperance Union convention at Greensburg.

Those who are going today and who expect to stay until Monday are Mrs. Margaret McClure, county vice president, and Mrs. T. I. Fulmer, treasurer of the Wilmington union, both from New Wilmington; Miss Margaret Peebles, county corresponding secretary, of Plaingrove, and Mrs. J. B. McClaren, county treasurer, of New Castle.

Mrs. Ella B. Black, of Beaverdale, state president, who has visited New Castle on a number of occasions, declared on the eve of the opening of the convention that "there is a decided turning toward prohibition."

"We have many new unions and over 3,000 members have been added to our ranks, many of them young mothers who are not willing for their children to live under present conditions," she added.

The convention, the union's sixty-third, "is one of the largest in the association's history and has the heartiest co-operation of pastors and educators," Mrs. Black added.

There are many excellent speakers on the program. Mrs. Ella A. Boole, president of the World W. C. T. U., will speak Monday.

Bridge Hitch Hiking Halted

Chief of Police Ralph A. Criswell stated today that having broken up the habit of schoolboys who collected in gangs on the Neshannock creek bridge in East Washington street to thumb rides east, he intends to keep the "hitch-hikers" dispersed.

Dozens of them collected at one time and several days ago a policeman took three of the youths in charge and took them to the police station where they were lectured severely.

Potato Yield Is Lowest In Years

Wet Weather Produces Blight Which Cut Down Yield Tremendously Here

Lawrence County potato growers are reporting the poorest yield of late potatoes that has been experienced in many years, due to blight induced by the extreme wet weather of the late summer.

In most instances, the late potato crop looked fine until along in August, when the blight struck them and whole fields were killed almost over night.

Potato growers who would normally expect around 400 bushels to the acre are harvesting only around 200, and in lots of cases much less, some fields yielding only about 25 bushels to an acre, barely enough for next year's seed, it is stated.

This condition exists throughout the entire Western Pennsylvania district, reports state.

The offering will go toward the support of the Bible teaching program of the Plaingrove Women's Christian Temperance Union.

Follies Dancer Stars In Drama

Claire Luce, Featured In Elite Burlesque Here Scores Hit In London

STRIP-TEASE ACTS RE-OPEN

By O. O. McINTYRE

NEW YORK, Oct. 15.—Thoughts while strolling: Octavus Roy Cohen sounds like a parachute opening. What a pal Joe Miller has been to Bob Burns. Gloomy monuments to a dead past—the World and Tribune Buildings on Park Row. Learn one thing each day: In Japanese O-hi-o means good morning.

O. O. McIntyre

Something else comes up like thunder out of China 'cross the bay. Ripley says you can smell China 100 miles at sea. Add wise old owl expressions: E. D. Coblentz's. Sidney Kent, a Mr. Big of the movies who used to be a cowboy. And his beautiful wife. Hooray for Bruce Barton!

If you can't think of that Chinese general's name, listen to car wheels going over rail ends: Chiang Kai-shek. If Gloria Swanson has aged in the past 15 years she doesn't show it. Not many know that Bugs Baer can draw pictures as funny as his paragraphs. And that means high hilarity.

For one of those English country-side squires jogging along in a cob-drawn trap I'll take Oscar of the Waldorf. What Hollywood will do to dignity: Ray Noble becomes one of the crack silly ass comedians. They say J. P. Morgan likes to prowl around pipe shops here and abroad.

A new Gable come to the movies: Stowkowski. For a neat, sedate and dignified dresser it's hard to tie Messmore Kendall. Memory: The embroidered splasher back of the wash bowl to save the wall paper. And Ed Hill remembers when New York had but three columnists. Which is a nice hunk of remembering.

Claire Luce, a town toast for her dainty dancing in the Follies, is making London sit up with her roles as a dramatic actress. She has appeared in two hits in a row without twinkling a toe. And still another deep drama is being readied for her. Miss Luce is a natural platinum blonde, best remembered for her entrance in a Ziegfeld show astride an ostrich—the same bird that once chased W. C. Fields into 41st street because in passing he playfully plucked a tail feather.

In those days Bill Fields never chirped a line. He was an expert juggler, with a comic routine, so superbly done Ziegfeld featured him in billing. As press agent for his shows, I used to watch him practise juggling on the old Frolic Roof. He would show up at 9 a. m.—unusual hour for an actor—and work until the the matinee. I see Bill only occasionally in late years. But in those days, too, on account of his large red nose and speech, everybody thought he was a perpetual souse. Yet he seldom drank. Booze is fatal to juggling.

A restaurant picturesquely mellow with days agone is the Smith's at Poughkeepsie, where the famous brothers got their idea for cough drops and where they first manufactured them and started to bank up a fortune. Pictures, the same as those on the cough drop boxes, hang on either side of the door. One says: William Smith, born 1830, died 1913. The other, Andrew Smith, born 1836, died 1898. Paddle fans whirl above the tables presided over by corn-fed looking waitresses—and the place has the pleasant atmosphere of the cozy ice cream parlors—those agreeable meeting places in the prairie towns of the 90's.

The raids and temporary closing of the Minsky burlesque is to appearances only a gesture. In the sanitized version, law forbids the name Minsky and the term burlesque. But it's the same old dish—differently garnished. Most of them have been reopened with potential Gypsy Rose Lees just as daring as ever in that supreme art of yokel yanking, the strip tease. A cheaper Broadway diversion is to stand near these show places and watch the old boys saunter up, look up and down furtively, and dart in like frightened rabbits.

My burlesque education was acquired in celebrated People's Over-the-Rhine in Cincinnati. Where the show began when the gallery bouncer rapped and yelled "Hats off!" Waiters paraded aisles between acts with foaming glasses and year after year we hailed with delight Billy Watson's Beef Trust Blondes and Snuffy the Cab Driver. It was packed with jovial commonness such as whangs on the conk with bladders and lisping psychological lollipops who minced about in their mignon way. But with all the rowdiness it never permitted such vulgarities as the strip tease. Men of family on nights out went to burlesque, with wives' consent, just to give them the feeling they were raising the very Old Ned.

FIGHTS DEPORTATION

(International News Service)

DETROIT, Oct. 15—Determined to carry his fight against deportation to Nazi Germany to President Roosevelt if necessary, Baron Egon Karl Van Mauchenheim today planned an appeal from the refusel of Marshal Vance, American consul at Windsor, Ont., to grant him a permenent visa.

The baron said he will face a Nazi firing squad if he is returned to Germany.

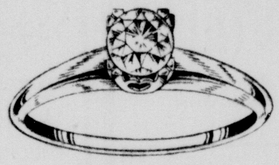

Yes, it's a free country; but try to find a man who deliberately chooses and prefers to live as he now does.

Anna Marie Hahn Called Murderess

Prosecutor Brands German Woman As Mass Murdress In Opening Statement

By EVELYN OBERMAN
International News Service Staff Correspondent

CINCINNATI, Oct. 15.—Wholesale slaughter was charged against Anna Marie Hahn today as Prosecutor Dudley Miller Outcalt delivered his opening statement at her poison murder trial.

The German immigrant, Outcalt told a jury of 11 women and one man, "has killed so many men that there isn't another human being like her on the face of the earth."

The prosecutor's fiery words brought Anna Hahn's defense attorney, Joseph Hoodin, up to his feet in protest. He objected to the introduction of what he called a prejudicial statement to the jury.

The German woman in this case is charged specifically with only one poison death, and that of 78-year-old Jacob Wagner.

Common Pleas Judge Charles Bell indicated he would deliberate the question of implanting the germ of thought in the mind of the jury that stolid, Hauptmann-like composure on the face of Anna Hahn is the mask of a mass murderess.

Auto Salesman Falls For New Type Of Bandit

Auto Salesman Not Only Loses Car, But Overcoat, Pocketbook Was Empty

PITTSBURGH, Oct. 15.—Joseph (International News Service) Gensamer, 35, auto salesman, today had learned a lesson on HOW NOT to sell a car. The "lesson" ran something like this, according to the story Gensamer told police:

Smiling young man in workmen's clothes walks into salesroom of A. W. Kennedy Motor company in suburban Cheswick. Would like to see a car.

Selects almost new sedan.

Gensamer prepares to make out purchase papers.

"Customer" objects; car must be driven to Tarentum for wife's O. K.

Gensamer agrees and the two pile into car. Meet detour near Springdale. Deviate onto back country road.

"Customer" leaves front seat and gets into back. Would like to "see how it rides," he informs Gensamer.

"Customer" pulls a gun, says: "Gimme your overcoat and watch," threatens to shoot when Gensamer's wallet proves empty.

"Customer" drives away in one direction; Gensamer walks—in the other.

PICKLED FIRE
(International News Service)

COLORADO SPRINGS, Colo.—A pickle jar set a Colorado Springs house afire recently. The glass jar, filled with dill pickles was placed in a window by Mrs. C. W. Huhlenburg. Lying on a table beside the window was a newspaper. The sun's rays, concentrated through the jar as through a burning glass, set fire to the paper. Flames shot upwards spreading to a cloth hanging on a wall. Firemen extinguished the blaze before it had done much damage.

Cannot Satisfy Both Sides In Labor Disputes

(International News Service)

WASHINGTON, Oct. 15.—So long as the American Federation of Labor and the Committee for Industrial Organization seek control of the labor movement the National Labor Relations Board does not hope to satisfy both sides.

Members of the board issued this statement today following charges of the C. I. O. that the board is partial to the A. F. of L. and accusations of the A. F. of L. that the board favors the C. I. O.

"Naturally the board's decisions as to what constitutes the proper unit for collective bargaining cannot completely satisfy both the American Federation of Labor and the Committee for Industrial Organization as long as the craft-industrial union issue continues to divide the ranks of organized labor," the statement said. "The essential purpose of the act is to protect all workers in their right to organize into unions of their own choice."

"THOUSANDTH CHANCE"
(International News Service)

MELBOURNE—A "thousandth chance" saved a stockyard worker at Benalla, Victoria, from death. He was charged by an enraged bullock and imprisoned against a fence post with one horn sticking into the wood on either side of his body. The bullock finally drew back for another charge, whereupon its prisoner scrambled unhurt over the fence to safety.

WASHINGTON AT A GLANCE

Black Question Was Side-Stepped

Opinion At Capital Is That Supreme Court Evaded Burning Issue

CUMMINGS WON'T PRESS QUESTIONS

Central Press
Washington Bureau
602 Times-Herald Bldg.
By CHARLES P. STEWART
Central Press Columnist.

WASHINGTON, Oct. 15. — The United States supreme court is generally considered in Washington to have sidestepped the issue of Hugo L. Black's constitutional right to a seat on its bench.

New Dealers are glad that the court did so. Many of them, however, confidentially admit that the high tribunal did dodge.

Two questions were raised:

1. Black voted, as a senator, to permit aged supreme justices to retire on full pay, which they had not previously been permitted to do. Wasn't this equivalent to voting for an increase in their emoluments? If so, it is agreed that he was debarred from accepting a position the emoluments of which he had voted to increase.

2. When Justice Willis Van Devanter retired did his retirement create an actual supreme court vacancy? Legal critics draw a distinction between a retirement and a resignation. Resignation implies that the quitting incumbent permanently is out. But retirement, according to numerous authorities, leaves him still subject to recall, as an army officer remains subject to recall, in emergency, from the reserves.

* * *

QUESTIONS UNANSWERED

The supreme court answered neither of these questions.

They were asked by two different individuals:

Albert Levitt, a former assistant attorney general, and Patrick Henry Kelly, a Boston lawyer.

The supreme court held that neither Kelly nor Levitt had sufficient interest in the matter to entitle him to be answered, or even to be listened argumentatively.

* * *

WHERE MATTER STANDS

The supreme court's position, as legalists interpret it, is that only one person is entitled to answers to the questions asked by Kelly and Levitt—and that is the attorney general of the United States.

Well, no one expects that such queries will be put by Attorney General Homer S. Cummings.

Thus the supreme court simply waives them aside, for as long, anyway, as a New Deal attorney general is in office. The supreme court does not say that Black is entitled to sit. It says only that no one is competent to challenge his right to sit, except the attorney general—who, at present, will not do it.

* * *

BLACK TO BE CHALLENGED?

Specific cases may arise in which a federal judge's impartiality may be questioned.

In the lower courts, in such instances, the judge's habit is to say, "All right; since you distrust me, I'll grant you a change of venue," and the litigation passes, from his, to other hands.

But the supreme court has no other court to which to transfer doubtful cases.

Now and then, indeed, a supreme court justice, believing he is suspected of prejudice, will pass that case up entirely, leaving his fellow justices to deal with it, without his voice.

Justice Black, however, probably will be accused of prejudice with tiresome regularity.

* * *

OR WILL IT BE FORGOTTEN?

But that is a surmise.

Here is another one:

Attorney General Cummings, to be sure, will not resurrect Albert Levitt's and Patrick Henry Kelly's embarrassing interrogations; yet suppose that, at some future juncture, another attorney general presses them.

Then all the previous decisions Black has participated in will be clouded.

It is not altogether an issue of today.

The Nazis say their only intention is to save us, but it sounds fishy. They haven't asked congress for a single billion.

National Convention Of Girl Scouts Will Close This Evening

Sessions Have Been Conducted At Savannah, Ga., Since Wednesday

Delegates from every state in the Union are attending the national Girl Scout convention which is being held this week in Savannah, Ga. The convention opened on Wednesday and will close tonight. Savannah has a special significance for those in girl scouting, for it was the home of the founder, Joliette Low, and the scene of the early days of girl scouting. It was thought fitting to hold the convention here this year to celebrate the 25th anniversary of girl scouting in the United States.

A memorial tablet to Mrs. Low was unveiled and dedicated during the opening session at the Savannah Girl Scout headquarters, formerly the stable of Mrs. Low's home. This building was given by her to the local Girl Scout council and has been the scene of scouting activities since the first troops were organized twenty-five years ago.

Mrs. Herbert Hoover, retiring national president of the Girl Scouts, presided at this session. The election of new officers took place on the 13th with Mrs. Frederick H. Brooke of Washington, D. C., being elected national president. She succeeds Mrs. Hoover, whose term of office expired this year. She has been active in scouting for many years having been regional chairman, among other things.

This evening the convention closes with a banquet at which Mrs. Hoover will be toastmistress. The speakers include Mrs. Frederick Edey of Bellport, N. Y., national commissioner; Dr. Lillian Gilbreth of Montclair, N. J., vice chairman of the board of directors, and Mrs. Arthur Choate of New York, vice president.

Automobile engineers predict that air-conditioning units will be installed in the models of 1940.

"soap scum doesn't mean you have to stop using soap"

"YOU'VE seen 'soap scum' in water . . . the unsightly substance responsible for the grey cast in clothes. streaks on dishes!

And wondered what to do about it!

I did, and I asked my grocer's advice. He told me that soap in any kind of water forms 'curds' or 'scum', which means that perfect cleaning is impossible!

'What you need', he said, 'is a grease-dissolving cleanser. *I recommend* CLIMALENE!

'Just sprinkle CLIMALENE, a tablespoon or so, into the wash or dishpan before adding your soap or flakes! CLIMALENE cuts grease instantly, allows water to *wash the dirt away!* My customers tell me they get twice the suds with ½ the soap and get their work done in ½ the time!'

I took his tip. And now I, too, am a warm friend of CLIMALENE!"

A Million Dollar's Worth of Clothing Style, for

$24.50

This is not an idle statement but rather an under statement. For, as a matter of fact, our investment in new Fall fabrics alone runs into several millions of dollars . . . in cash.

Yes, we buy for cash because in the wholesale markets, as well as in the retail stores, a cash buyer pays less and gets more for his money. Our own supreme values prove that.

To return to style, however, our vast collection of woolens, worsteds, cheviots, cassimeres, twists, tweeds, and serges includes every weave, pattern and color in the fabric world.

Before you spend $35, $40 or more, come to Richman's. We are sure you will find just the style you want for $24.50 . . . and that includes drapes, sport-backs and all other models, fabrics, textures and patterns.

New Technique In Love Today

Margot Graham, British Beauty Says We Should Modernize Our Love

(International News Service)

HOLLYWOOD, Oct. 15—There's a new technique in love.

Take that from Margot Grahame, the curvaceous, orchidaceous, blonde from Britain, who has more almirers than a statesman has worries.

In a final dramatic fillip at old-school conventions before leaving for New York, the gorgeous Margot, who is off on her first vacation since she started playing opposite Frederic March in "the Buccaneer" months ago, said:

"The popular conception of how to make love needs revision, modernizing. Millions of people are missing happiness because their technique is old fashioned. You don't sneak up on a girl's affections any more by a long arduous campaign full of chivalry and self-denial. What sort of man of today asks a girl if he may kiss her? A parlor snake! You kiss her, that's all. That gives you both a chance to know whether you like it, and saves the girl the embarrassment of saying, "well, come on, I'll see what I think.' After all, a young lady likes to maintain some finesse in such matters.

Pity Grandmothers

"Pity our poor grandmothers, they never had the opportunity of such frankness and common sense behavior. It was frowned on as "unlady like. But everything is on trial today—governments, dictators, treaties and love. Even the staidest and most conservative lovelorn columns admit that daughters of the young ladies who used to write in and ask if it was all right to help a young man on with his coat now write in and want to know should they live with a man unmarried.

"Our whole outlook on love has changed and those who are pursuing old school methods are likely to be left in the backwash of the stir they themselves are making about the 'conventions.' The method today is not to lay siege to a woman's heart—or a man's—by a long process of furtive hand-holding, cheek-kissing and vague embraces. I notice most people who are happy plunge wholeheartedly into love."

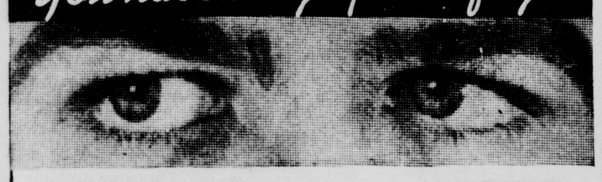

WHOLESALE GROOM

(International News Service)

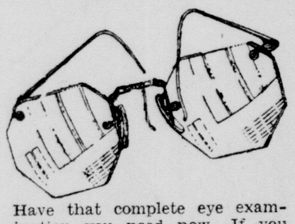

BUCHAREST—A record case of polygamy is reported from the town of Galatz, where 52-year old Vasile Florea was arrested on a charge of having 14 wives and 29 children in various parts of Rumania. A commercial traveller, Florea was found out when Mitritza, his youngest wife decided to divorce him. Her lawyers, allegedly found out about Vasile's wholesale matrimonial ventures.

SPRY NONAGENARIAN

(International News Service)

NEWBURYPORT, Mass.—A nonagenarian—95 to be exact—has drunk from the fountain of youth but will not reveal her secret. Mentally alert to the goings on in the world about her, Mrs. Angelina Montgomery says her plan for long life is a "secret." She has been confined to her bed recently because of a broken hip suffered when she fell, but is able to get about and enjoy life.

MUSIC HATH CHARM

(International News Service)

HOLDEN, Vt.—When the Weeks school orchestra of Vergennes played "America, the Beautiful" at Wesleyan church, it literally brought down the house. Just as the last notes of the selection split the air, the floor of the 100 year old church edifice collapsed. None of the 180 persons in the audience was hurt, however. Vibrations set in motion by the orchestral instruments were believed to have caused the floor to give way.

Christian Speech And Conduct

"Brass Tacks" On The Sunday School Lesson

The Golden Text

Ephesians 4:29—"Let no corrupt speech proceed out of your mouth."

By DR. ALVIN E. BELL

(The International Uniform Lesson on the above topic for Oct. 17 is the third chapter of the Epistle of James, the Golden Text being Ephesians 4:29, "Let no corrupt speech proceed out of your mouth.")

THE TITLE "Practical Christianity" might well be given the Epistle of James. No other part of the New Testament so closely resembles our Lord's Sermon on the Mount in form or content. James everywhere insists on faith proving itself in life and deeds. In this third chapter he demands that the believing heart manifest itself in a temperate tongue.

The Peril of Eloquence

There is a real peril in the gift of eloquence. It must never be permitted to degenerate into a mere "gift of gab". James saw this peril among certain ill-prepared and ill-tempered would-be teachers who evidently loved to hear themselves talk. So he warned in this earliest of all the New Testament books: "Be not many of you teachers, my brethren, knowing that we shall receive heavier judgment. For in many things we all stumble. If any man stumbleth not in word, the same is a perfect man, able to bridle the whole body also." In his "Essay on Criticism" Pope says, "Words are like leaves, and where most abound, much fruit of sense beneath is rarely found." James would have agreed with this.

The Intemperate Tongue

James felt that there was no phase of self-control so rare as ability to control one's own tongue. Wild horses could be controlled by a tiny bit in their mouths; great ships could be directed by a tiny rudder, but how different it often is with that tiny organ we call the tongue! Runaway horses and rudderless ships are easy to control compared with the person with a loose tongue! "So the tongue also is a little member, and boasteth great things." A vicious tongue is as dangerous as a match thrown carelessly in a national forest: "Behold, how much wood is kindled by how small a fire! And the tongue is a fire: the world of iniquity among our members is the tongue, and defileth the whole body . . . and is set on fire by hell." There is but a letter difference between "word" and "sword", so let us be equally careful in their use. "Many a word at random spoken may soothe or wound a heart thats broken!"

The Untameable Tongue

James regarded the tongue as more difficult to tame than any wild beast: "Every kind of beasts and birds, of creeping things and things in the sea, is tamed, and hath been tamed by mankind: but the tongue can no man tame; it is a restless evil, it is full of deadly poison." Then there is a strange duplicity of a tongue that now praises God and again curses man: "My brethren these things ought not so to be." No more so than freak fountains ejecting both sweet and bitter waters, or fig trees bearing olives. May our words express God as did the words of him who was the Word of God made flesh, "Who did no sin neither was guile found in his mouth." Let wisdom be displayed not by eloquent speech but by beautiful living: "Who is wise and understanding among you? Let him show by his good life his words in meekness of wisdom." "Words are the daughters of earth, and things are the sons of heaven," as Johnson said in the preface to his dictionary.

BOSTON—Newspapers are the best advertising medium, it was disclosed by Oscar A. Doob, advertising director of a nation-wide theatrical circuit, after a month's survey conducted throughout the circuit.

"Newspaper policy is always a direct reflection on reader interests. This increase of space devoted to movie news by the more alert and progressive publishers reflects an increase in interest on the part of newspaper readers," said Doob.

"In my opinion it is a further assurance that the newspapers are still the most effective means of reaching the theater-going millions of America."

They Have Won the Applause of a Nation

GENTLEMEN, WE GIVE YOU THE MOST MODERN CHASSIS IN THE WORLD

Under the new beauty of Buick, modern engineering makes history, co-starring the DYNAFLASH ENGINE and TORQUE-FREE SPRINGING

The spark that leaps through that compact storm-center sets off a flashing cyclone of power, exploding with tornadic force!

WHAT HAPPENS inside the 1938 Buick engine happens nowhere else in the world.

That is not advertising language, it is cold-steel engineering fact.

Speeding through the raceways of the intake manifold, the fuel mixture vapor hurricanes into the cylinders at speeds around 250 miles an hour.

As it sweeps past streamline valve contours, a scientifically designed Turbulator, built into the piston face, flings it into airswirls of terrific turbulence.

Sitting in the driver's seat you become aware of power that is livelier and more brilliant because *gasoline is giving up more performance than it ever gave up to motorists before!*

TO MATCH this incomparable stride, Buick engineers now give you a kind of springing you will likewise find on no other car in the world.

Poised on jarless *coils* of easy-flexing steel, Buick floats free of bobble, jar, chatter, jounce.

The car will not over-steer or understeer—skidding, even on icy highways, is blessedly reduced.

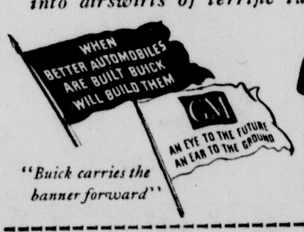

Rear tires no longer scuff half their life away through power-wasting wheel-slip.

Through winter and summer, without need of grease and without "seize" from rust, dirt, water or ice, springs keep their gentle, even cushioning for the life of the car.

YES, IT IS a great story, the story of these twin engineering triumphs in the 1938 Buick.

So great a story that it obscures half a score of other advances, themselves enough to make any car a wonderful buy.

We invite you to learn more about them this week at any Buick showroom.

State Tax Burden May Be Increased

(International News Service)

HARRISBURG, Oct. 15.—An increase in Pennsylvania's tax burden appeared possible today as Gov. George H. Earle announced he would not tolerate any belt-tightening in relief grants, preferring a deficit to the lowering of relief standards.

The governor's announcement confirmed an exclusive International News Service disclosure recently that relief expenditures were exceeding budget estimates and that additional appropriations may be necessary, possibly at the coming special session of the legislature this winter.

Dauphin County Politicians War Over Court House

Failure To Obtain Funds For New Building Has Become Campaign Issue

(International News Service)

HARRISBURG, Oct. 15—Dauphin county's failure to obtain PWA funds for the construction of a new courthouse has become a leading issue of the local November election campaign.

Democrats blasted the majority G. O. P. county commissioners for failing to seek PWA grants for a proposed new building. Then Tom Nelley, president of the commissioners' board, declared at a Republican rally that the Republican commissioners had left it up to Minority Commissioner J. Douglass M. Royal, Democrat, to get the grant. At the last development, Royal was citing records which he said show that the Republicans "didn't want" a courthouse built in part with PWA money.

Says Bad Students Should Pay Costs

Failure To Graduate In Four Years Should Be Penalized, Teacher Asserts

(International News Service)

PITTSBURGH, Oct. 15.—Laziness in students is a liability and should be paid for by students who require more than four years to complete high school, in the opinion of Myrtle E. Wylie, Allegheny high school teacher.

Miss Wylie asserted that charging regular tuition for students attending high school after the regular four-year term would save the city $140,000 in high school teacher cost, explaining:

"We have in our high schools alone about 50 teachers because of pupils who are repeating subjects. Education must cost the individual student more and the taxpayer less, if it is to be appreciated and is to build worthy citizens," she added.

Medical Society To Back State Drives

Votes Support In TB And Syphilis Campaigns; Dr. Titus Speaks

The Lawrence County Medical society last night pledged its cooperation to state health authorities in coming drives against tuberculosis and syphilis.

The cooperation was quickly voted after it became known that ninth grade students of New Castle and Lawrence county schools will be provided opportunity for the Manteau test, a skin test given to determine if a person is infected with tuberculosis. After the skin test the state will bring a mobile X-ray outfit here to further examine students who wish to submit themselves. None of the tests will be compulsory.

The drive against syphilis is also planned by the state and will come later.

Dr. Paris A. Shoaff, society leaders said, will take charge of the tuberculosis tests in his capacity as county medical officer. The society will work with him.

Italy Stamps Out Small-Pox In Addis Ababa

Scourge Has Ravaged Ethiopia For Period Of Many Years

(International News Service)

ROME—Battling the small-pox scourge that has ravaged Ethiopia for years, Fascist medical authorities vaccinated 116,534 citizens of Addis Ababa and the surrounding country in the first six months of 1937.

Diffidence and native supersitions led many dusky Ethiopians to attempt to avoid treatment, while Fascist officials charge provacateurs "across the Empire borders" circulated rumors among the natives that the vaccination campaign was a deliberate attempt on the part of the Italians to insert deadly poison in the Ethiopian blood stream.

Disease Wiped Out

Despite these handicaps, almost every human being living in the so-called "capital zone" extending miles into the hinterland surrounding Addis Ababa has now been treated, and Addis Ababa for the first time in its history lacks a single case of the dread disease.

The handicaps, states the Italian press, were overcome by "persuasive action followed by the government." So effective was this action that the ten percent of the vaccinated with whom the first treatment did not take all "spontaneously" returned for another dose.

In the short period from May 20 to June 20, 85,000 were vaccinated. Of the total number treated thus far this year, only 3,000 were Italians resident in Ethiopia; all the rest were natives.

The mass vaccinations have "taken" with such beneficial effect that at present only 75 small-pox cases exist in the government region, a record low.

New Regulations For 44-Hour Week

(International News Service)

HARRISBURG, Oct. 15.—Regulations under the 44-hour week law for women were issued by the industrial board today for inventory and seasonal peak periods in the retail trade and manufacturing industries, charitable and educational institutions and office building management. The regulations included:

Inventory and seasonal peak periods for manufacturing and retail trades—employes may work more than eight hours but not more than 10 hours in any day or 48 hours in six days in any week for periods not to exceed a total of five weeks in any year. This schedule must be filed with the Labor and Industry Department. During the remainder of the year such weekly periods must not exceed three. Overtime must be paid at the rate of one and one-half times.

Charitable and educational institutions—employes preparing or servicing food may work not more than eight hours in any one day or 44 hours in six days in any one week. A 12-hour "spread" is permitted.

Office buildings — maintenance employes may not work more than eight hours in any one day or 44 hours in six days in any one week.

REALLY QUIET

The actor was visibly downcast.

Wife—Did you get any applause?

Actor—Yes; it sounded like a caterpillar crawling over a Persian carpet whilst wearing rubber shoes.

THE BRUTE

First Stenographer—That's the meanest boss I ever had.

Second—Why, dearie?

First—He waited until 5 o'clock to fire me.

Will Strengthen Penal System In State, Is Report

American Prison Association Is In Annual Session, Approve Of Plans

(International News Service)

PHILADELPHIA, Oct. 15.—A comprehensive, six-point program for strengthening Pennsylvania's penal system today won the approval of the American Prison Association, now in its 67th annual congress here.

The program, submitted by Commander John D. Pennington, superintendent of the Pennsylvania Industrial School at Huntingdon, calls for centralized control of state-owned penal institutions, coordination of prison and parole service, and a centralized "classification bureau" in the Department of Welfare.

Commander Pennington proposed extension of the intermediate sentence, establishment of a merit system and a training school for prison personnel, and state controlled regional farms to coordinate county and state penal institutions, abolishing the prison system of county jails.

J. Edgar Hoover, chief of the Federal Bureau of Investigation, was charged by Austin H. McCormick, New York City's commissioner of correction, with fostering a "machine-gun school of criminology" which teaches that "our prisons are country clubs and prison officials 'convict lovers,' that our parole systems are hollow shams, and that those who administer them are silly sentimentalists and sob sisters."

New Castle And Martins Ferry Play Saturday

BIG CROWD WILL WITNESS BATTLE

New Castle "Red Hurricane" Primed For Test With Fast Martins Ferry Team; Each Team Has Won One Game; Both Will Strive To Gain Edge; Head Coach Phil Bridenbaugh Is Plainly Worried; Kulnis, Mumeyak In Starting Lineup Is Believed; Martins Ferry Sending Big Delegation With Purple Riders. Kickoff Slated For 2:30 P. M.

NEW CASTLE High School "Red Hurricane" football machine will play hosts once again to the big "Purple Riders" of Martins Ferry, Ohio, Saturday afternoon at 2:30 o'clock, the two schoolboy elevens will face each other across white-striped Taggart Stadium. There will be a riot of color at the game. In event of good weather a record breaking crowd is looked for.

There is intense interest in this game in both towns. Martins Ferry will come here supported by over 1,000 students and followers. The reason for the high interest is the fact that the two teams have met twice previously and each has won a game. This is known as the "rubber" game. And each team wants to win it. It should be a high class battle. Both teams lost valuable men by graduation and other reasons this year. Both have been defeated, but this doesn't detract from the game's interest one bit.

Seek Victory

Two years ago this big Purple Riders horde came out of the Ohio valley and the game that was unfolded here that afternoon was one of the finest of the year. New Castle won it, 26 to 18, but what an afternoon of footballing the locals had to do to win it. Last year New Castle journeyed to the Ohio city and came home on the wrong side of a 20 to 14 game, but it was another great battle. The fans can rest assured that the game tomorrow will be equally as interesting.

There will be a lot of color to this coming contest. There was for the two previous years and this year will be no exception. It looks like a great football party Saturday. For color, the Tech and Notre Dame game will not have a thing on this New Castle grid engagement.

Plenty Tough

Head Coach Phil Bridenbaugh will be a greatly relieved man when this game is ended. "It is one of our toughest games" was the way Bridy looked at it.

"I've seen them play and believe me they are plenty good. We will be lucky to hold them to a low score."

New Castle will have just about the same starting lineup that faced the Washington High team last Friday night, except that Kulnis will be at left guard in place of the injured Al Piccutta. Robert 'Pinkey' Higgins may get the call for the right end post over Carey. Mumeyak may start in place of Gender at blocking quarter. These will be the only doubtful jobs on the team.

Depends On Offense

A lot depends on the New Castle offense Saturday, the locals will have to be good to outrun this big Purple Riding team. The Red and Black offensive looked quite a bit better against Washington than it did against Youngstown East. But, it will have to be better than that.

It would not be surprising to see the game fought Saturday in the clouds. Both teams have forward passing attacks that have not been aired much this year. Maybe they have been waiting for this game to unlimber the aerial thrusts.

Faculty Manager Ralph H. Gardner is making preparations to handle the biggest crowd of the past several years. There is genuine appeal in this game. Martins Ferry turned out enmasse last year to greet the big "Red Hurricane" grid jauggernaut and New Castle will do the same thing tomorrow.

The game will be handled by Dr. George McLaren, former Pitt All-American fullback. Ray Landis from Ohio valley and Dan Brickley.

Martins Ferry is sending its band here and New Castle will be out in the new uniforms if the weather permits. It is going to be a grid menu worth tasteing.

Westminster Will Play Slippery Rock

(Special To The News)

NEW WILMINGTON, Pa., Oct. 15.—Coach Grover Washabaugh sent his Titans through a strenuous blocking drill in preparation for the Slippery Rock game, Saturday. With six regulars on the injured list after last week's battle with the California Teachers, the new Blue and White mentor will probably use a revamped lineup for the Rocket game.

DePaulis and Susko, varsity tackles, are still nursing painful leg and back injuries; and Valicenti and Shoup, first-string backs, were not in uniform because of leg injuries. Shoup's hip was thrown out of place in the Teachers game. Although Miller and Barr, varsity ends, did not practice early this week, they were in uniform again today.

Facing the prospect of a 90-pound line when they meet the Rockets, the Blue and White coaching staff emphasized line-blocking and backfield-timing in this week's sessions. With a squad already riddled by injuries, the Titan team faces two tough week ends as they prepare for games with Slippery Rock and Geneva on successive Saturdays.

Bessemer Meets West Pittsburg

Bessemer Only Needs Win One Game Sunday To Win Title

West Pittsburg, champions of the city circuit, and Bessemer, tops in the Lawrence county loop, will play a twin bill Sunday afternoon at the Bessemer field. The first game will start at 1:30 p. m., and it is anticipated that the double-header should draw a big crowd because they will be the last two baseball games of the season. Should Bessemer win one game they will be champions of the county. To win the honor West Pittsburg must take both tilts.

Bessemer has four good hitters, Stanley, Nord and the Puromaki brothers, while Markey, Brakey, Kosier and the Elssesser brothers have plenty of dynamite in their clubs.

Bessemer will pin their flinging hopes on Hardesty because D. Nord and Snyder are reported on the sick list. Brakey will start the first game for West Pittsburg with Winters and Tonsetic in condition for the second game.

WINTER CYCLONES WIN

The Winter Cyclones handed the Wildcats a 24 to 21 defeat in a thrilling grid battle. Captian Louis Grossman, Donegan, Snow and Elliott were standouts of the game. The plunging of "Hep" Grossman was the best for the losers. For games with the Cyclones in the 12-year-old class see Louis Grossman.

Notre Dame To Practice Today At Beaver Falls

The Notre Dame football squad, comprising some 75 or 80 men and trainers, will detrain at Beaver Falls shortly after noon today and at 2:30 this afternoon Coach Elmer Layden will have his Notre Dame Irishmen out on the greensward of Reeves stadium, the home of Geneva college football.

The Notre Dame team will stay in Beaver Falls all night and go into Pittsburgh only shortly before game time on Saturday.

Andy Lasky Is Now Coaching

Andrew "Andy" Lasky, former New Castle high football, basketball and track star and a member of the Pitt varsity track team for three years, is now coaching football, basketball and track at Connellsville Junior high, it was revealed today.

The New Castle boy is well qualified to teach all three of the major sports, having been a very fine grid and basketball player while at New Castle high. He played basketball and was on the track team at Pitt, never having gone out for football. He graduated at Pitt last June.

He is the son of Mr. and Mrs. John Lasky, of 1107 Howard Way.

Mixwell scored victory by neck over Top Tax in featured event at Rockingham Park.

Two Brighton Boys Promising In Titan Squad

LAPOSKI MILLER

NEW WILMINGTON, Oct. 15.—Among the outstanding sophomores on Coach Washabaugh's Westminster Titan squad are two New Brighton boys, who with Dale Youkers, Butler guard, are known on the campus of "The Three Musketeers."

These two varsity Titans, Julius Laposki, 160-pound quarterback, and Mel Miller, lanky varsity end, are two of the most dependable men on the Blue and White squad. Laposki, an all W.P.I.A.L. quarterback, captained his team during his senior year in New Brighton high under Coach George Roark, last year's Blue and White mentor. In sixteen tries for extra point after touchdown, Laposki converted on fourteen. He is a good blocker and an excellent field general.

At end, Miller is probably the Titans most dependable linesman. In addition to playing a strong defensive game at end, Miller is an excellent pass-receiver and if necessary can be pulled into the backfield to punt. Miller is one of Westminster's few two-letter freshmen, with numerals last year in both basketball and football.

Miller is a member of the Theta Upsilon Omega fraternity and a major in social science; Laposki is also a T. U. O.

George Lott, Jr., Ben Gorchakoff, Vincent Richards and Bruce Barnes led field into quarter-final round of country's first open tennis championship tourney at White Sulphur Springs, W. Va.

Demands for salary increases by stars of New York Yankees expected to plague owner Jacob Ruppert.

Independent League May Be Formed Here

If plans now underway materialize New Castle fans will see plenty of independent football here within the next several weeks.

At the Y. M. C. A. tonight a meeting of various representatives will be held for the purpose of furthering plans for an independent league. According to Rocco Viggiano, of South Jefferson street, and John Rubeis, Croton avenue, at least 10 representatives are expected tonight at the meeting. With 10 teams in the circuit, fans would be assured of one of the fastest leagues ever organized here.

The way it appears now the Wabash Bears, Catholics, Fannins, Croton, Koppel, Frisco, Milton, DeHarts, South Hills and Keystones are among the elevens seeking to join. Annually, the independent scramble for honors is exciting. Competition started back in 1921 when the South Side Bulldogs copped the honors followed by the East Side Buccaneers the following year. The Slabtowners redeemed themselves by crashing through with honors again in '23 only to have the East Siders follow suit the next year.

In 1925 a new entry crashed the limelight when Marcellas swept aside all opposition for the coveted laurels. The South Side Bulldogs eked out another title in '26 followed by Croton. The Marcies took the pennant again in '28 with Croton winning in '29. In '30 the Marcellas again forged to the front followed by the DeHarts. The Williams pulled through with the honors in '32-'33 after which the Ryantowners were champs in '34-'35. The Wabash Bears of Mahoningtown, are defending champs this season.

On Sunday afternoon two battle are carded, the Frisco passers battling the Wabash Bears and the Catholics lining up against the Keystones.

The circuit would be exciting for this reason: Former grid stars of New Castle high are split up among the various clubs. Tonight's meeting will decide whether or not a league will be formed.

Any team desiring to enter is asked to send a representative.

"Bud" Fraser Is Out Of Bed

"Bud" Fraser, popular New Castle high school gridder, who was injured during practice, is able to be out of bed. Fraser lives on Florence avenue, and is an end.

Capt. George E. T. Eyston of England, halted by rain after 15½ hour run in attempt to set world speed auto record for 24 hours on Bonneville salt flats, Utah.

Marica defeated Count Arthur by neck in two-horse race at Keeneland, Ky.

Picks Pitt To Trim Fordham

Walsh Also Favors Duke To Take Georgia Tech, Likes Yale Over Army

MANY BIG GAMES ON CARD SATURDAY

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, Oct. 15—By sundown tomorrow, we'll all have a much better idea than we have now which happens to be roughly none at all, as to which football teams are good and which aren't in at least two of the major sections of the country, namely, the East and South.

By the same hour, at least, nine of the country's ranking outfits can and might be defeated for the first time and, for this dubious distinction, I'm nominating Tennessee, Fordham, Harvard, Mississippi, Texas, A. and M., the Army, Centenary, Vanderbilt and Georgia Tech. I trust they won't let this spoil their day.

Tennessee, having just come off a tough scoreless tie with Duke, doesn't figure to be ready for another brannigan so soon, this one with undefeated Alabama, which took South Carolina just handily enough to be nicely sharpened for tomorrow.

Dukes Favored

Duke, meantime, goes down to Atlanta to play Georgia Tech, which has scored 119 points to none against three opponents. Wallace Wade hasn't had two bad games in a row since taking over at Duke some years ago and I don't think he's due to break the continuity now. In the light of later developments, it may be that the championship of the South is to be paid off with these two games.

Certainly, the championship of the East would seem to be out there on the auction counter, with six undefeated teams coupled in the going at New York, New Haven and Baltimore

Picks Pitt to Win

At New York, Pitt, the Rose Bowl champion, will have another fling at Fordham, this time with a sound chance of winning by as many as two touchdowns. Fordham eked out a bloodless tie last year, but just doesn't figure this time.

At New Haven, Yale and the Army will put on another of their florid extravaganzas, with everybody more or less reduced to picking the winner by ear. As a distinguished member of the We-Wuz-Wrong club this positively qualifies me to state that Yale ought to win this one.

At Baltimore, I'm taking undefeated Navy over undefeated Harvard, using more or less the same infallible method.

Michigan Vs. Minnesota

West Coast football won't do anything drastic, what with the champion-apparent, California, dallying with college of the Pacific. The Big Ten will be pretty much the same, with Ohio state inactive. Although Northwestern is picking up a live one in Purdue while Michigan may turn out to be less supine than Minnesota suspects. The big six likewise seems to face a fairly orderly day, unless Oklahoma upsets Nebraska at Lincoln.

In this connection, it's worth stating that upsets at Lincoln can be counted on the fingers of an old maid's mitten and, besides, Oklahoma is doing a lot of traveling in one week from Dallas to Norman to Lincoln. Therefore—Nebraska to win.

Play Spots In County Closed

No Accidents Reported During Successful Season Which Ends Recently

Lawrence county's most successful playground season in years ended recently.

Throughout the summer months the various play spots in the county were crowded with youngsters who whiled away the time playing amid the sun and invigorating air. The WPA recreation department, ably assisted by the WPA, education teachers and National Youth Administration, were responsible for the marked success.

No Accidents

During the season 18 playgrounds were operated in the county. Despite the fact that thousands of youngsters assembled at the playgrounds, not one accident was reported. This speaks well for the WPA recreation leaders.

As a means of encouraging the movement, city, county and public spirited citizens made gifts of grounds, funds and equipment which aided tremendously in making the season such a standout. Citizens co-operated splendidly throughout the season.

Among the activities conducted were baseball, softball, tennis, badminton, archery, football, table tennis, paddle tennis, horseshoes, volley ball and swimming.

As far as the children are concerned the season is over, but as far as the leaders are concerned, their work has not ended as plans are already in the making for the next season. Children of New Castle and Lawrence county will be assured of another outstanding playground season next summer.

Plans Complete For Field Day

Expect Thousands To Attend Proclivities At Fair Ground, Saturday

EVENTS SCHEDULED TO START AT 9 A. M.

Everything is in readiness for the fourth annual field day of the Lawrence County Sportsmen's council which will be held Saturday at the New Castle fair grounds. Activities will start at 9 a. m. and last until evening. Thousands of persons are expected to attend the meet.

All of the sportsmens' association in Lawrence county will be represented and the events will include skeet, trap, and rifle shooting; bait and fly casting and events for coon dogs, beagles, spaniels, and bird dogs.

According to the officials of the meet there will be entertainment for the women and children and it will be possible to obtain refreshments on the grounds. A feature of the meet will be cash prizes for the coon dog winners.

Counter-attractions and cold weather tended to keep down the size of the crowd last year but in years prior to 1936, the attendance ran into the thousands. With fair and not too cold weather Saturday, thousands are expected to attend.

Mermaids Name New Presildent At Westminster

(Special To The News)

NEW WILMINGTON, Oct. 15.—Joyce Beatty, Westminster College junior, Bellevue, has been elected president of Mermaids, women's swimming organization.

Miss Beatty was secretary of the sophomore class last year, and holds the same position in the junior class. She is a member of Senate, women's governing group; the Women's Athletic Association, and Pan-Hellenic Council, inter-sorority organization. She is very active in dramatics, and last year took the lead in a Little Theatre production of Shakespeare's "Twelfth Night."

Miss Beatty, an English major and a member of Kappa Delta sorority, enjoys swimming, hockey, volley ball and cooking. She is the daughter of Mrs. May W. Beatty, 1706 Renton avenue, Bellevue.

In Bellevue high school, Miss Beatty was a member of the Girls' Athletic Leaders; ranked fifth in her graduating class, and was a member of the National Honor Society.

HERE AND THERE IN SPORTS' LAND

Tiger Joe Randall defeated John Henry Thomas in a 10 round bout at McKeesport last night. Randall won with punches to spare. They are middleweights. Anson Green scored a technical knockout over Charlie Fiore in the seventh round. They fought as middleweights. In the 10-round heavyweight bout Buff Mellinger got the decision over Jack Patton.

They have renamed the left-halfback squad at Detroit University the "Suicide Club." Four left-halfbacks have been injured or declared ineligible since last October. Andy Farkas has been moved to that position and Coach Gus Dorais is going around with his fingers crossed.

A threatened walk-out by mem-bers of the University of Cincinnati football squad as directly responsible for the sudden decision of Head Coach Russ Cohen to resign, Wade Woodworth, a line coach, having taken Cohen's place. In their threatened walk-out, the players were influenced by outside groups hostile to Cohen, it was reported.

Penn State Ready To Battle Lehigh

Another Pony Back May Join Harrison, Wear And Metro In Game

(Special To The News)

STATE COLLEGE, Oct. 15.—Penn State's trio of pony backs, Harrison, Wear and Metro, who gained nearly 300 yards by rushing against Gettysburg and Bucknell, may be joined by another speedy lightweight star in the Lehigh game tomorrow.

Steve Rollins, a sophomore from Greensburg, has burned up the practice field this week with his excellent open field running and will probably be used in a large part of the Lehigh encounter. Rollins weighs 165 pounds. He played more than half of the Gettysburg game, scored one touchdown and averaged six yards every time he ran the ball.

At 165 pounds, Rollins is "heavy" as Nittany backs go this season. Wear weighs 133, Harrison 150 and Metro 163. In the last two games Wear has rushed the ball 105 yards, Harrison an even 100, and Metro 85.

Rabbit Wear, however, gets major credit for three spectacular plays this season. In the Cornell game inside of three minutes Wear shot a pass to Adessa for a total gain of 65 yards and two minutes later circled the Big Red right end for 65 yards more.

Against Bucknell the "thimble quarterback" uncorked a play described by Coach Higgins as one of the most brilliant he has ever seen. Surrounded by Bucknell linemen, Wear was chased back 30 yards. He dodged his pursuers, retraced his steps for 25 yards and tossed a pass to Adessa standing on the Bucknell one-yard mark. The Rabbit ran a total of 55 yards, threw a 24-yard pass for a gain of only 14 yards. But it was a gain sorely needed by the Lions and was their margin of victory over the Bisons.

Despite the total yardage gained by Wear, Harrison and Metro, Penn State's scoring has been distributed this season among nine players, six backs and three linemen. Harrison leads with three touchdowns and two extra points.

Tomorrow's football games seen as proving ability of eastern and southern teams.

Alice G. won in photo decision over Masked General in featured race at Laurel Park.

Alex Shellogg Is On Starting Team

Will Occupy Starting Berth In Notre Dame-Carnegie Game Saturday

When the famous "Fighting Irish" line up against Carnegie Tech on Saturday afternoon at Pittsburgh, one of the starting berths will be occupied by a New Castle young man—Alex Shellogg.

Shellogg, right tackle, got the starting assignment last week against Illinois and made a creditable showing. Alex is the only New Castle gridder to ever make the varsity at Notre Dame. Fred Shellogg, Alex's kid brother, will be prepared for action. He is a substitute tackle.

Catholics Book Two Grid Games

One of the smoothest, Independent grid teams in the city will open its season next Sunday afternoon at Rosena grounds when the Catholics of the South Side line up against the Keystones.

The Keys and Cats are bitter rivals. Fans are assured of an action filled battle. The kick-off is slated for two o'clock. The Keystone lineup will include Louie Leonard, Jap Covelli and Dudy Perrett, all former New Castle high stars. Gabby DeCaprio and Sammy Coppie, also formre high gridders, and Ciazza, former Ben Franklin high star, are on the Catholic team.

A week Sunday, the Catholics meet the Fannins at Centennial field. Paul Small, Albert and Walt Paklovitch who wore New Castle high uniforms not long ago, will be on the Fannin lineup. According to reports, the Catholics plan entering an independent league which is being organized.

FROM ME TO YOU

By MESEEALL

You should have seen the expression on Meseeall's face yesterday as he walked into the police station with a little card in his hand . . . it seems that Officer Wincek left his calling card on the old bus and it was an invitation to report for "parking where parking was prohibited" . . . watch parking on Wallace Avenue at least in front of the Hileman apartments . . . they are a nice bunch up there at the police station . . . if you knew the problems they try to solve then you would understnd and really behave yourselves . . . now this coming Saturday . . . tomorrow to be more accurate we are having some mighty fine guests here in town . . . they are the supporters for the Martin-Ferry's football team . . . last year they treated our people very fine and I think we should do the same . . . around the stadium certain streets will be reserved for the visitors . . . when asked not to park on these streets, please co-operate.

The Tin workers are planning on Saturday as being a big day . . . it seems that a little feeling has developed between the two Mills (here and there) as to which town has the best team . . . it won't be long boys and then you can give it to them.

The Bachelor-Girl Club comes through with quite a few members today . . . Kate Buchanan . . . Lois Hetrich . . . Toots McFarland . . . Katherine Wagner and Kathryn Dickson . . . welcome girls and your membership card will be ready next week sometime.

If you want to hear the High School Band play popular numbers then here is your chance . . . write three numbers down on a piece of paper and either send it to this desk or give to your usher and the three most requested numbers will be played following the games . . . See Saturday's paper for blank.

The new uniforms will not be used this Saturday . . . parts of the uniforms are missing and until they are complete the public will not be able to see them . . . I wish they would hurry up and get here . . . Keep your eye on the Martin-Ferry's drum major . . . she is the berries.

Don't forget A. F. of B. boys, you are my guests at the Penn Theater—Tonight or Saturday . . . Show your card.

Stock Market Under Pressure

(International News Service)

NEW YORK, Oct. 15.—The stock market continued under pressure today as leaders tumbled one to more than three points in the wake of yesterday's last-hour break.

Trading was at the heaviest pace in some time, with the ticker lagging three minutes at one time.

Support was encountered at the end of the first hour, however, and earlier losses were about cut in half.

Chrysler and U. S. Steel were among the more sensitive issues. The former opened 1½ points lower at 74¼, tumbled to a new 1937 low of 72, off 3¾, then quickly recovered to above 74. Big steel started a point higher at 67, slipped back to 65¾ for a fractional loss, then spurted to around 68 for a net gain of about two points.

Class Started For Remedial Reading

School Board Told

Twenty-Two Pupils Being Given Special Instructions In Reading

ELLWOOD CITY, Oct. 15.—A special instruction class in remedial reading has been started in the Ellwood City schools and is now well under way, members of the Ellwood City board of education, assembled Thursday evening for their October meeting, were told by Superintendent Vaughn R. Delong.

Fifty-eight pupils were given complete tests in reading, arithmetic and spelling. Their intelligence score was then considered and 22 cases were selected for the first instruction. An examination shows that most of these cases are pupils whose reading level is much below their achievement in other subjects, yet their intelligence score would indicate that they should be able to learn to read. These pupils are having special reading instruction daily and this instruction is based upon their particular weakness as shown by the tests.

Regarding a report from the Bureau of Inspectors, Department of Labor and Industry, concerning the outside lighting system, the board agreed to have their architect, Byron McCandless, confer with officials at Harrisburg.

Under the new state Boiler Act, all the boilers at the schools were inspected and found to be in a fine condition. Some action regarding boiler inspections and insurance will be taken at a future meeting.

An explanation of a new five year act abating interest and penalties on delinquent taxes providing the current tax is paid in full and 20 per cent of the delinquent tax paid before November 1, the expiration of the act, is more fully explained elsewhere on this page.
